Startling Developments Indicate a
Negro Was Her Accomplice in
Diamond Robberies.

CHICAGO, Ill., Oct. 10.—Wife of
a rich manufacturer, mother of a
young child—thief, consorter with
negroes!

By confessing to a series of bur-
glaries that would make many a pro-
fessional crackman jealous, Mrs.
Evaline Romadka, aged 23, contrib-
uted a unique case to the lore of
criminal psychology yesterday. Ar-
rested Saturday night in a fashion-
able cafe for wearing stolen jewelry,
the woman finally broke down before
the questioning of the police and
sobbed out a story that amazed the
officers.

The episode then developed into
something more than chaff for the
police court and food for scandal. It
is one that will reward the investi-
gation of experts in the analysis of
the obscure mental causes for moral
decadence.

Mrs. Romadka is refined and edu-
cated. Though the traces of dissipa-
tion are now evident in her features,
she is obviously a woman of more
than ordinary culture.

High Up in Society.
Married to a wealthy man, she is
possessed of ample means. She
dresses expensively and has been liv-
ing in high-toned hotels. Her hus-
band, Charles J. Romadka, is a mem-
ber of one of Milwaukee's richest and

CHICAGO, Ill., Oct. 10.—Enthus-
iasm today went wild soon after the
opening of the game, there being a
mighty crowd of fans present, was
brought out by the victory of yester-
day.

The gates were opened at 11
o'clock and thousands of people went
without their dinners to get pos-
sitions. The crowd was fully as large
or larger than yesterday and every
noise imaginable was used by the
fans.

The Cubs had things started after
the second inning, when a score was
run in, and three in the third and
another in the fourth put the Tigers
to the bad.

Siever was taken out of the box
after the fifth inning and replaced by
Killian.

BRYAN WILL NOT SPEAK IN CITY

City Attorney John H. Doherty this
morning received notice from State
Chairman H. H. Hanson of the
democratic committee to the effect
that Hon. William Jennings Bryan,
the "silver-tongued orator," would
not speak at the La Crosse theater
next month, as the dates have been
cancelled and the schedule re-ar-
ranged, so that Mr. Bryan will ap-
pear at Madison and Green Bay. He
will speak at Fond du Lac on the
12th.

Delegation Goes to Madison.
La Crosse democrats feel some-
what slighted over the fact that La
Crosse has been cancelled from the
list of cities to welcome the orator,
but a large delegation will no doubt
attend the Madison address.

RADIUM TO BANISH UGLY BIRTHMARKS

PARIS, Oct. 10.—Two of the fore-
most physicians in Paris, Doctors
Wickham and Degrais, created a sen-
sation at the Academy of Medicine
by announcing the discovery of a
method to remove birthmarks by the
action of radium. The new method
has proved equally successful in the
case of adults and children, the
marks being effaced by the simple
application of a plane surface cov-
ered with a varnish containing radium.

JOHN BRAKKE GOES INTO BANKRUPTCY

Attorneys Morris and Hartwell to-
day filed a petition in bankruptcy
for John Brakke, the well known
Caledonia street druggist. Brakke's
assets are \$2,000 and his liabilities
\$2,200. An attempt of one of the
creditors to secure a preference
forced Mr. Brakke to take the step.

RENEW 2 CENT FIGHT

MONTGOMERY, Ala., Oct. 10.—
Gov. Comer has issued his proclama-
tion convening the state legislature
in special session to enact laws un-
der which railroads will be prevented
from resorting to federal injunctions
to prevent enforcement of the recent-
ly passed 2 cent fare and other rail-
road laws.

NOBLEMAN GETS PRIZE

AUGUSTA, Ga., Oct. 10.—Miss
Dorothy Eugenia Thompson, aged 17,
daughter of Mr. and Mrs. J. Walker
Thompson, is engaged to marry Lord
Trenton, an English nobleman, in
August next June. Miss Thompson
met Lord Trenton while on a Euro-
pean trip. She was in short dresses
and he was attracted by her girlish
beauty.

MANAGERS OF THE TEAMS CONTESTING FOR THE WORLD'S BASEBALL CHAMPIONSHIP.
FRANK CHANCE is manager of the Chicago Cubs, who won the National league pennant, and Hugh Jennings
manages the Detroit, who won the pennant of the American league. These two teams are now battling for
the world's championship.

TRAINMASTER IS SUPERINTENDENT

PATRICK H. HOUGH OF THIS
CITY PROMOTED

GOES TO BEARDSTOWN, ILL.

After Twenty Years of Service in La
Crosse He Will Become Head
of a Division

After twenty years of service in
the employ of the C. B. & Q. at the
general offices at Second and Pearl
streets, Trainmaster Patrick H.
Hough will tomorrow evening leave
for his future home at Beardstown,
Ill., to which place he has been trans-
ferred and promoted to the position
of superintendent of the Beardstown
division.

Trainmaster Hough resides at 621
Cass street and has a large number
of friends in this city who will re-
gret to see him leave.

Mr. Hough will leave for his new
duties at Beardstown tomorrow
evening but his family will not be moved
there until some time next spring.

BEISEL SUCCEEDS HIM

Superintendent Hough will be suc-
ceeded by F. C. Beisel who has been
chief dispatcher at the C. B. & Q.
general offices at Second and Pearl
streets for the past 18 years.

Although Mr. Hough will go to
Beardstown to take charge of that
division as superintendent, this even-
ing, Chief Dispatcher Beisel will not
enter upon his new duties as train-
master until about the 14th of the
month, next Monday.

Mr. Beisel's friends are very much
pleased to learn of his promotion.
It was reported for some time that
Yardmaster Herrington of the North
side yards would fill the vacancy.

HANSON WILL BE ARRAIGNED AGAIN

A. C. Hanson, "The Duke of Min-
doro," will be arraigned before
Judge Brindley for the second time
within a week, charged with running
a blind pig in Mindoro, Wis., in vi-
olation of the dry vote, at the spring
election. At the same time, George
G. Pfaff, and Matt Elange, who are
alleged to have sold liquor in vi-
olation of the law also will be arraign-
ed.

The warrants were sworn out some
days ago, but were not served until
today. Peter Gullickson, chairman of
the town of Farmington, is bringing
the complaints.

Hanson was acquitted at his for-
mer trial by a jury of three.

BREAKS HIS SKULL; WEDDING DELAYED

MARSHALLTOWN, Ia., Oct. 10.—
Instead of being married last night,
as was planned, Rev. Leroy E. Gal-
lagher, pastor of the Methodist
church of Laurel, Ia., lies probably
fatally injured with his skull frac-
tured in a runaway accident while
on his way to Green Mountain, where
the intended bride, Ida F. Keese,
lives. Guests from a distance had as-
sembled when news of the accident
came. Miss Keese hurried to Mar-
shalltown to nurse her lover, who had
been taken to a hospital.

Holds Conference With Indiana
Friends and Having Eliminated
Taggart, Will Run.

INDIANAPOLIS, Ind., Oct. 10.—
W. J. Bryan announced, after a con-
ference lasting until 4 o'clock this
morning, with John Kern, several
times democratic candidate for gov-
ernor, that he will state his attitude
towards the presidential nomination
before Thanksgiving.

Bryan was assured by Tom Tag-
gart that the latter will not run for
membership on the democratic na-
tional committee, whereupon Bryan
urged Kern to get the place as In-
diana's representative on the com-
mittee. This is taken here to mean
that Bryan will announce his candi-
dacy.

ELLIOTT BACK FROM BIG GAME

President John A. Elliott returned
last evening from Chicago where he
attended the American National league
game.

Mr. Elliott was present at the an-
nual meeting of the Wisconsin-Ill-
inois baseball association and went
from there to Chicago.

He had a hard time to get seats as
all reserves had been sold and 18-
840 had already passed the turnstiles
when he arrived, shortly before noon.
He got seats which had been secured
with great difficulty by a man whom
they had sent to secure them early
in the morning.

Without any dinner, except a few
sandwiches and "Pop" which they
secured by "robbing" the crackerjack
seller of his basket and sending him
to a nearby restaurant, they re-
mained in their seats till about 6 o'clock.
The crowds were immense and De-
troit streamers and pennants were
everywhere in evidence.

FOUR DIE ON A GASOLINE YACHT

PERTH AMBOY, N. J., Oct. 10.—
In an explosion of a gasoline yacht
on Raritan Bay today four men,
Harry P. Barter, Floyd McRose, E.
G. Olson and Chas. Wickberg were
drowned, and three others were badly
injured.

HUNGARIANS IN PUB- LIC DEMONSTRATION

BUDAPEST, Oct. 10.—With busi-
ness at a standstill fully a million
workmen are demonstrating in a
hundred and fifty cities. The Hun-
garian parliament at the opening ses-
sion today continues two days. If the
suffrage is passed it will be a
victory for Emperor Joseph.

TERRIBLE WRECK NEAR VIENNA

VIENNA, Oct. 10.—Ten are reported
killed and thirty injured as a re-
sult of an express train from Sem-
lin colliding today with a freight
train. Fire caught the cars roasting many
to death.

TRIED TO SUICIDE TWO DOZEN TIMES

REMARKABLE RECORD OF GIRL
DECLARED INSANE TODAY

CARRIED A KNIFE WITH HER

Esther Kolber of North Side Sent to
State Asylum by Wornout
Parents.

After attempting to commit sui-
cide two dozen times, Esther Kolber,
25 years of age, 1303 Caledonia
street, was committed to the state
hospital for insane at Mendota, Wis.,
by Judge Brindley today. Drs. W. A.
Powell and G. E. Powell examined
the young woman.

Since the age of 8 years, Miss
Kolber has been afflicted with epilep-
tic fits. At times she is rational, but
is incapable of continuous thought.
The mother of the patient informed
the examining physicians that her
daughter has attempted to end her
life at least two dozen times. Several
times she had been found with a
knife concealed on her body, but her
folks disarmed her of the weapon.
At last the situation became so critical
that the family was compelled to
do away with all knives, which might
be used in an attempt at self de-
struction.

Finally conditions grew worse, and
a continued watch had to be kept on
the woman.

Later Miss Kolber was found with
a bottle of carbolic acid. She at-
tempted to swallow a portion of this
when her parents and watchers
seized her.

By this time the strain of watch-
ing the young woman had become
so great that the mother decided to
have her daughter committed to the
state hospital for the insane.

GIRL KNEW "COLORS"

READING, Pa., Oct. 10.—When
Miss R. L. Hoy was being examined,
as to her fitness for a position as
telegraph operator, Division Operator
Johnson asked her the color of a
piece of ribbon.

"That is cerise," said Miss Hoy.
"I just bought a hat of that color,
trimmed with a veil of crushed violet."

"What's this?"
"That is Alice blue."

Johnson recovered slowly, but was
game for another effort.

"What would you call this?" he
asked.

"Nile green."

"And all these years we thought
they were red, blue, and green," he
sighed.

STEAMER HAS NARROW ESCAPE

NEW YORK, Oct. 10.—The Aus-
trian steamer Giulia and 765 passen-
gers experienced a narrow escape
from destruction by fire in mid-ocean
during a storm Oct. 3. The crew
fought the flames all day while the
passengers prayed for assistance. The
steamer arrived here today from
Trieste.

There are a lot of other things in
the busy world besides time and
tide that wait for no man.

RESIGNATION OF MITCHELL MAY CAUSE MONSTER STRIKE

DIDN'T KNOW OF GIFT OF MILLIONS

STRANGE FAILURE OF MEMORY
OF P. S. TRAINER

HAD NO DEALINGS WITH LINE

But Balance Sheets Showed He Was
the Recipient of Vast Fortune
From Profits.

NEW YORK, Oct. 10.—P. S.
Trainer, purchasing agent for the
Standard Oil company, took the
stand in the oil hearing this morn-
ing and testified he never heard of
the millions of dollars charged to
him on the books of the Southern
Pipe line, owned by the Standard.
These immense sums appear on the
balance sheets as "expenses" and ap-
pear to have been paid to Trainer.

Kellogg read six different amounts
ranging from \$4,599,838 to \$2,341-
344, put on the sheets between the
years 1895 and 1905. Trajner ap-
peared to be surprised because of
these big amounts written opposite
his name.

"I never had any financial deal-
ings with the Southern Pipe line,"
he said, "and never heard of those
amounts before."

The balance sheets show the sums
taken from the profits of the Pipe
Line company and there is nothing
showing the money was paid back.

LOCAL TELEPHONE DISTRICT MERGER

At the meeting of the directors of
the Wisconsin Telephone company at
Milwaukee yesterday a movement
was passed for the consolidation of
the districts of La Crosse and Eau
Claire with headquarters at Eau
Claire.

Frank L. Shuman, district man-
ager of La Crosse, stated today that
the change had been made, but the
only change would be the headquar-
ters for the La Crosse district would
be changed from Milwaukee to Eau
Claire. In the past all the work
handled by the local office has been
sent direct to the head office at Mil-
waukee, but a short time ago the di-
rectors decided to lessen the number
of districts, the first change being
the consolidating of Green Bay, Fond
du Lac and Appleton, with head-
quarters at Green Bay. When the
telephone company was organized 10
districts were made in the state, and
it is now the movement to lessen
the number to five.

Mr. Shuman will still be the dis-
trict manager and instead of work-
ing under the Milwaukee office will
now answer to Manager P. J. Skolos-
ky at Eau Claire and all work in the
future will go through the Eau
Claire office.

No change in the local office is
made by the consolidation.

GRIMES CAPTAIN OF FOOTBALL TEAM

The second high school football
evening met last evening and elected
Grimes as captain of the team and
Tom Simpson manager. A game
has been scheduled with Onalaska
for Saturday and will be played just
previous to the Tomah-La Crosse
game. Since the game last Saturday,
with the Third ward the boys have
been practicing earnestly and they
expect to make a better showing in
the game with Onalaska.

The outlook is rather blue for the
first high school team, which meets
the Tomah high's Saturday, "cons"
having forced Haley, Fowler, Brin-
dley and Jungbluth from the eleven,
greatly weakening the team. Coach
Savage, however, is getting the men
out every night and expects to pick
a strong team for the contest Satur-
day. A mass meeting was held this
afternoon and a great deal of en-
thusiasm was shown by the stu-
dents.

A reception has been planned for
the Tomah players for Saturday
evening. Corens hall has been leased
for the evening and a dance will
be given by the students. Kreutz's
orchestra will furnish the music.

BODY OF RICH BOY DISSECTED

ST. LOUIS, Oct. 10.—The partial-
ly dissected body of Frank Meakin,
son of one of the wealthiest families
in England, was found today in a
medical college because of no money
to make the burial. He was the son
of the owner of the Meakin China-
ware Manufacturing company of
Trent, Eng. Death was caused by a
fall.

HEAD OF MINERS' UNION WILL QUIT

GIVES ILL-HEALTH AS CAUSE
FOR RETIREMENT

LEWIS AN AVOWED CANDIDATE

Long Time Enemy of Mitchell and
Man Who Favored Strike Be-
fore, After Presidency

INDIANAPOLIS, Ind., Oct. 10.—
President Mitchell of the Miners' union
today announced his intention to
resign his office.

Vice-President T. L. Lewis is an
avowed candidate for Mitchell's place.
The two men have not spoken to
each other for years. It is predicted
if Lewis is elected next year we will
see the biggest coal strike ever
known.

Lewis counseled a strike in the
last two agreements between the
operators and miners and as the con-
tracts for both anthracite and bitu-
minous miners end April 1 and 350,000
miners will be free to strike, which
would involve a million men.

In the announcement to members
of the union Mitchell said ill health
prevented him continuing in office;
that he will explain further in his an-
nual report to the convention.

President Mitchell of the United
Mine workers announced he will not
be a candidate for re-election and
will retire for good, in the Workers'
Journal.

FORESTER WILL SPEAK IN CITY

Secretary A. A. Bentley of the La
Crosse board of trade has received a
correspondence from Edward Mur-
rian, state forestry secretary of Ma-
dison, to the effect that Mr. Thomas
E. Will, an expert on forestry, who
is employed by the government, and
resides at Washington, D. C., will be
able to be in La Crosse on the 7th
of November and that he will speak
at that time.

A definite date has not yet been
set. Mr. Bentley said this morning
that he may try to secure Mr. Will
to speak here on the 5th of the
month so that he may appear at the
regular meeting of the board of
trade.

Mr. Will's lecture will be free and
will be under the auspices of the
State Forestry by the United States
government and all possible pre-
caution will be taken in the future
to preserve the United States timber-
lands and provide a system of re-
growing them, such as is enforced
by Germany and other foreign gov-
ernments.

CARUSO FOREVER IF HE CAN SING

NEW YORK, Oct. 10.—"I don't
care if Caruso pinched a thousand
women if he can sing," said Hein-
rich Conried, director of the Metro-
politan opera house, who returned
from Europe, broken in health as a
result of the nervous strain caused by
the monkey-house incident and sub-
sequent fining of the famous tenor.

Herr Conried was asked:

"Will you ever be troubled by
Caruso again?"

"Troubled?" he exclaimed with a
show of anger. "I will have the
pleasure of seeing him and I hope
you will have the pleasure of seeing
him, too. He will come back to sing,
most certainly. I think he has come
back about his fine."

CLASSIC OF TURF TO GENERAL WATTS

WINS \$14,000 STAKE AT LEXINGTON, KENTUCKY

MUDDY TRACK; SLOW RACES

Leland Onward and "R. F. D." in Spectacular Struggle for the Tennessee Stake

LEXINGTON, Ky., Oct. 10.—Gen. Watts easily won the Kentucky Futurity in three straight heats. At no time was the colt even extended, winning with his driver, Mike Bowerman, holding the lines in one hand. Kentucky Todd quit to nothing when it came to a driving finish. The only struggle was between Blisa, Baron McKinney and Bonnie Way for second money. The heavy rains of Monday left the track three or four seconds slow and record breaking was out of the question.

The Tennessee stake for 2:06 paced furnished the only spectacular racing of the day. R. F. D. won the first two heats handily, but Leland Onward of the day. R. F. D. won the third and fourth heats in close finishes from Kruger and Hedgewood Boy. Hedgewood Boy easily won the fifth heat and then the sixth and seventh heats handily. Lady Maud C. won the first and second and Bonanza the third heats in the unfinished 2:08 pace. Summaries:

CUBS WIN REAL FIRST OF SERIES

GAME FULL OF WASTED OPPORTUNITIES YESTERDAY

JENNINGS IS ORDERED OFF

Tigers' Manager Kicked on Some Raw Decisions and Is Benched by Umpire O'Day.

CHICAGO, Ill., Oct. 10.—The Cubs took the second game of the world's championship series yesterday afternoon by a score of 3 to 1.

It was a game bustling with sensational plays, bad judgment and wasted opportunities. For eleven half innings the first man up in each team got to first base, but so tight and fast was the play that they died on the bags. The Cubs won by the sheer power of their bats.

The crowd was fully as large as that of Tuesday, and if anything more enthusiastic. Every seat was occupied, and thousands saw the game from the roof stands outside the grounds.

The two games played thus far have netted the teams \$30,000. With those yet remaining, there seems every probability that the share of the two teams will be in the neighborhood of \$75,000.

Big Sum for Players. This will mean almost the doubling of the salaries of the winning team, as they will receive over \$50,000 to be divided among about fifteen men.

Thus if the games go to the finish, next Sunday each player on the winning team will receive close to \$3,000 for his work for one week. It is no wonder, therefore, that they battle so savagely and sharply.

Yesterday's game was as filled with the uncertainties of baseball as could well be. Pfeister, Chance's slim left-hander, was opposed to chunky Mr. Mullin. Neither of these may be ranked as a star pitcher when opposed to such bright lights as Brown, Donovan or Matthewson.

Yesterdays game was as filled with the uncertainties of baseball as could well be. Pfeister, Chance's slim left-hander, was opposed to chunky Mr. Mullin. Neither of these may be ranked as a star pitcher when opposed to such bright lights as Brown, Donovan or Matthewson.

Kidney Disease Sapping the American Nation?

A Word of Warning—and a Remedy. Modern conditions of living in America are said to be increasing Kidney, Bladder and Rheumatic Ailments at such a rapid rate that the public health is threatened.

To meet the situation it has been proposed that the newspapers of the country give wide publicity to Dr. Flood's prescription not only as being the finest remedy for these ailments known but one in which the people can place perfect confidence, coming as it does from such eminent medical authority.

This is a practical suggestion that should result in the relief of a vast amount of suffering and we take pleasure in being able to help the idea by giving the doctor's famous prescription in full:

Concentrated Barkola Compound, 1 ounce; Fluid Extract Cascara Aromatic, 1/2 ounce; Aromatic Elixir, 4 ounces.

Get the ingredients at any drug store, mix them at home and take one teaspoonful after each meal and one before going to bed.

shone with a stellar radiance. Yet strange to say, neither seemed to have anything in particular outside of a wide cut-curve.

This was particularly true of Mullin. Throughout the game he used a straight ball and an out-curve by an occasional wild one that kept Payne dancing back of the plate like a marionette.

Jennings Benched. The umpires worked hard and conscientiously, but two or three of their decisions may be put down in the punky column, notably O'Day's decision calling Schaefer out on a steal to second. Jennings kicked hard and loud, and eventually hit the players' bench with a dull thud, on the order of O'Day.

The Chicagoans kicked repeatedly on the balls and strikes called by Sheridan, but to the impartial observer in line with the plate and the box the decisions seemed to be all right. Mullin's wide out-curve would break and come slashing over the plate in a way the Cubs could not fathom for a time. Steinfeldt, Evers, Tinker, Slagle and Sheekard all kicked when no kick was coming.

In a sense the game was the first of the world series, as that of Tuesday, being a tie, goes for nothing.

The board of trade men have gathered \$25,000 together to bet on the Cubs, but after yesterday's game it is not likely that they will find any takers. The weather was fine in temperature, but a high west wind interfered somewhat with the work of the fielders.

What Did It. The Cubs broke up the game in the fourth. Tinker glanced a safe one off Mullin's shins, Pfeister's sacrifice sending him to second. He stole third beautifully and scored on Slagle's grounder, which was missed by O'Leary. Then Slagle stole second and scored on Sheekard's double to right.

This won the game for the Cubs, neither side being able to score thereafter. Score: Chicago, R. H. P. A. E. Hard Times in Kansas. The old days of grasshoppers and drouth are almost forgotten in the prosperous Kansas of today; although a citizen of Codell, Earl Shamburgh, has not yet forgotten a hard time he encountered. He says: "I was worn out and discouraged by coughing night and day, and could find no relief till I tried Dr. King's New Discovery. It took less than one bottle to completely cure me." The safest and most reliable cough and cold and lung and throat healer ever discovered. Guaranteed by O. T. Erhart's drug store, 50c and \$1.00. Trial bottle free.

developes muscle, might and mind. Dr. Chas. S. Grady, Grantwood, N. J., says: "I believe the moderate use of good malt beer, the product of barley vegetable or cereal ingredient, is beneficial to adult persons and is certainly a food."

The popularity of "Peerless" is due to its commanding superiority. It has a splendid fragrance and most delightful flavor, because it is brewed—and has been brewed for half a century—by the celebrated **Gund Natural Process**—a peculiar process that retains in a most wonderful degree the aroma and strength of the grain and the hop.

THREE MORE DAYS OF MOST LIBERAL OFFER IN TRIBUNE'S \$3,500 CONTEST

CONTESTANTS MAKING EVERY EFFORT TO
TAKE ADVANTAGE OF THE LAST OFFER TO
BE INAUGURATED.

OFFER TO BE REDUCED 50 PER CENT NEXT WEEK

Several Contestants in Both Country and City Working
for the Buick Automobile.

After today, but three days remain for contestants in the Tribune's \$3,500 contest to take advantage of the largest offer to be inaugurated. After this week, the offer will be reduced fifty per cent. Those who realize the opportunity, are taking advantage of it to the fullest extent, and will certainly be classed among the winners on Oct. 26. Those who do not start to work immediately and take advantage of the opportunity offered this week will have to work just twice as hard the last two weeks in order to catch up.

Many of the contestants state that they have not as yet been able to see all their friends who have promised them subscriptions. It might be well to state in passing that those who have promises of subscriptions should get them fulfilled this week. A thousand votes may win the automobile or piano, and this is the week to get them. It would be too bad to be defeated by such a small margin, but it is very likely to occur. That is why it will be to every contestant's advantage to get every possible order this week. Perseverance exerts a big influence over success in this contest, and those who give up now and rest on their oars, will surely be defeated.

List of Contestants. The list of contestants on another page of this paper shows how rapidly a number of the candidates are progressing. Thousands of votes came in to the office after the polls had closed on Wednesday, and consequently do not appear in this count. Contestants living in the country should mail their subscriptions to us the day before the polls close, in order to be sure they are counted. Regarding the closing of this week's offer, all mail bearing the postmark of Monday, Oct. 14, before 8 p. m. will be accepted and credited with the double votes.

VARSAITY TIED BY THE SCRUBS

MADISON, Wis., Oct. 10.—Scrubs 10, Varsity 10, is the best the regulars could do in thirty-five minutes' scrimmage yesterday. The varsity scores, made by Rogers and Wilce, were secured by runs made by forward passes, one executed by Messmer and the other by Fack. Wieman and Lowman made the scores for the scrubs, first by running 40 yards around end and second by dashing 60 yards after catching a short punt. The scrubs were strengthened by Osthoff playing with them.

Might Have Gone Out.

An Irishman who was traveling in England for a dry goods firm was once showing a line of sample dress goods to a merchant who was woefully slow in making up his mind. He handled them and rehandled them, until the commercial traveler was at his patience end. Finally the merchant asked if the goods shown were fashionable.

"They were when I first began to show them to you," replied the traveler, "but I'll be hanged if I can tell you now."

It is said that the buyer was so pleased with this answer that he pardoned the rudeness of it and became a steady customer.—Strand.

STAGG'S STRONG LINEMAN IS OUT

CHICAGO, Oct. 10.—Coach Stagg of the University of Chicago eleven had one disappointment and one enjoyable surprise. The disappointment was caused by the announcement that Roy Maddigan, the Maroons' strongest lineman, may not be able to play again this season. Maddigan is suffering from water on the knee. To offset this bad news, Ralph Taylor, the Des Moines football star, reported to Stagg yesterday. Taylor was fullback on the freshman team two years ago. His delay in entering college was caused by the illness of a relative.

Stagg expects that Taylor will make one of the tackle positions and he intends to try Jones out at left tackle in Maddigan's place.

ELK STAG WILL BE NOTABLE EVENT

Arrangements have been completed for the first of the series of Elk stag entertainments, at Elks' club Saturday night of this week, for members.

There will be a striking musical program, including piano, violin and vocal selections by Profs. Goettlinger, Dirks and others and a special warm lunch will be served. Other forms of amusement are mentioned on the programs which were sent to members of the lodge this morning.

Invitations have been sent to members of the Winona lodge and the affair will probably be one of the most notable in the social season.

His Dear Old Mother.

"My dear old mother, who is now eighty-three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well." That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by O. T. Erhart, druggist, 50c.

MILL STREET SAFETY AT LAST

Through the activities of the North Side Progressive league steps are being taken which promise some definite results in the matter of eliminating the perils of the Mill street crossing. The work of the organization comes in response to the demands of public safety, and the humanity of their position is the best guarantee of success. The officials of the railroad cannot ignore the palpable danger of disaster at this crowded and unsentimental crossing.

Indications are that the prosecution of the crusade will result in the removal of the depot to Rose street, with the widening and extension of the viaduct there. This would compel an overhead crossing for the street car company, a "consummation devoutly to be wished," and also promises to give access to the depot with vehicles, the lack of which is one of the most serious drawbacks of the old location.

The influence of organized effort is nicely illustrated by the present incident. All that has been said about the bad crossing in the past has elicited nothing from the railroad company, but approached by the officials of the Progressive league, they at once take cognizance of the urgent necessity, and consent to a meeting to discuss ways and means of improving the situation. Doubtless the league will take advantage of the reasonable spirit of the company officials to get some kind of a settlement of the difficulty adopted. And if the Progressive league were to disband after accomplishing this, without doing another thing, they would have earned the right to a monument on which there might be scrawled an epitaph over the signature of Humanity.

GIVE TEDDY A CHANCE

The Commoner quotes and comments upon the following Washington news dispatch:

"Allegations that the great western packers, known as the beef trust, are once more operating in violation of the Sherman anti-trust law, the Elkins act and the rate regulation law are made by firms and persons engaged in the meat and provision business in Washington."

Mr. Bryan feels that there is nothing strange in this, because there has been nothing in the conduct of the federal administration to deter predatory corporations from prosecuting the system of thievery that has so long been popular. He says:

"Is it any wonder that, judging from their experience with prosecution by federal authorities, and from the ease with which trusts generally escape conviction either through the immunity bath or through 'punishment' that does not restrain—is it any wonder that the beef trust magnates continue to defy the law? Indeed does not every consumer of beef know that there has not been a moment since the beef trust received its immunity bath or say during the past ten years when the beef packers were not conspiring in restraint of trade and fixing the price at which the farmer must surrender his cattle and the price which the consum-

PEOPLE OF NOTE

Miss Ida M. Tarbell

Miss Ida M. Tarbell.

Miss Ida Minerva Tarbell, for a number of years associated with McClure's Magazine, but now with the American Magazine, is noted as one of the earliest writers on the subject of corporate evils. She was born in Erie county, Pa., November 5, 1857, and was the daughter of Franklin S. and Esther Ann Tarbell. She graduated from the Titusville High Schools and from Allegheny College. About five years ago Miss Tarbell began publishing in McClure's magazine a series of papers on alleged malpractices of the Standard Oil company which created a sensation. She has written the history of the Standard Oil company and this is her most notable contribution to literature.

er must pay for his food. Out of all the noise and bombast of trust prosecution the people have obtained not the slightest relief; the same old prices—if not higher ones—have been fixed at the same old stand. And with all this lawlessness the criminal clause of the Sherman anti-trust law providing for prison sentence has remained unenforced.

"It is not unfair to say that at this very moment the exactions of the trusts are greater and more keenly felt by the American people than at any time in the history of our country, greater by far than when, speaking as vice president in the city of Minneapolis, Mr. Roosevelt said that it might be necessary in the future to shackle cunning as in the past we have shackled force."

Admirers of Mr. Bryan will not all agree with him in this conclusion, exactly. There can be no doubt that the methods employed to shackle the trusts have been clumsy and far from effective. But it is also true that more has been done to check and control them during the current year than in all the history of the republic preceding. While jail for dishonest millionaires is needed to plainly print in their minds the lesson sought to be taught, a fine of 29 millions is not to be taken lightly, even by a wealthy trust. We believe with Mr. Bryan that more serious methods than those represented by fines must be used to compel obedience to the laws. The administration is busy, however, and it is but fair to give it a reasonable time in which to investigate and act upon the new charges against the beef trust. A second, offence, if proven, would afford the desired pretext for putting some of the malefactors behind prison bars.

A RECORD WRITTEN IN TOMBS.

There is food for thought in the following brief editorial published by the Richmond Times-Dispatch anent the railroad casualties of the past year:

"The recent railroad disaster on the Boston and Maine railway, by which fifty persons were killed or injured, directs attention to statistics recently given out by the interstate commerce commission. During the fiscal year 1906, 19,618 persons were killed and 97,706 injured by the railroads of the United States, as against 6,335 killed and 29,027 injured in 1890. During our war with Spain our total losses in killed and wounded amounted to less than 500—or, to be exact, 290 killed and 65 wounded. During the war between Japan and Russia, the Japanese casualties on land amounted to 153,652. Yet railroad casualties in the United States in a single year were 108,324. That is a disgraceful exhibit for the United States, and goes to show that we set a low estimate upon the value of human life."

That it is a shame no one will deny. That it is unnecessary practical men say there is no doubt. One of the crying needs of the hour is national legislation limiting the possibility of railroad accidents by compelling precautionary conduct of the roads. Congressman John J. Esch has been a pioneer in this line of national legislation, and there lies before him a large field for further humane and just endeavor.

The Wisconsin tobacco growers have organized a little trust of their own, to beat the tobacco trust. We hope, and trust, they will succeed.

And again, there's the old story about the boy whistling through the graveyard.

SPOTLIGHTS

Richard Bennett, the curate-hero, in Charles Frohman's production of Henry Arthur Jones' masterpiece "The Hypocrites," is one of the distinctly coming young American leading men and it is extremely probable that another season will find him at the head of his own company. Mr. Bennett, while young in years, has been on the stage a long time, starting while still a very young man with a company playing a large and varied repertoire. His progress has been rapid. The role he enacts in "The Hypocrites" is that of a young clergyman utterly fearless and upright and who in the face of almost insurmountable obstacles triumphs over a tissue of lies, righting a great wrong which is about to be done. Charles Frohman presents "The Hypocrites" at the La Crosse theater to-night.

6748 Child's Drawers with Waist, 2 to 8 years.

CHILD'S DRAWERS WITH UNDER WAIST 5743.

The strong, durable under waist that will withstand the most active child's movements is the one for which wise mothers are on the outlook. Here is a little model that is serviceable as well as absolutely simple and which is combined with short drawers while it also can be utilized for the petticoats which can be buttoned to it. In this instance the waist is made of twill while the drawers are made of cambric but both are trimmed with embroidery. All the materials that are used for garments of the sort are appropriate, however, although it is wise to make the waist of something strong and sturdy. For the drawers nainsook, batiste and like are in every way desirable with trimming either of lace or embroidery.

The waist is made with front and backs and is supplied with underarm facings that mean exceptional strength and service. The little drawers can be finished either with or without tucks and are gathered with bands and closed at the sides. Button-holes are worked in the bands and buttons are sewed to the waist to correspond, so that the two can be held firmly together.

The quantity of material required for medium size (6 years) is for the under waist 1 yard 27 inches wide with 2 1/2 yards of edging, for the drawers 1 yard 36 inches wide with 1 1/2 yards of edging.

The pattern 5743 is cut in sizes for children of 2, 4, and 8 years of age and will be mailed to any address by the Fashion Department of this paper on receipt of ten cents. (If in haste send an additional two cent stamp for letter postage which insures more prompt delivery.)

WHAT DAVID SAID OF LINCOLN.

(Leslie's Weekly.)

Nobody now believes that the leaders of the southern confederacy had a hand, directly or indirectly, in the assassination of President Lincoln. Nevertheless, it is a satisfaction to read a bit of testimony which conclusively exonerates the late Jefferson Davis from the slightest complicity in that terrible affair.

Recently Mrs. J. A. Hayes of Colorado Springs, a daughter of Mr. Davis, stated that after the death of Mr. Lincoln her father explained to her that the terrible deed was done by a crazy man, who no doubt thought he was the savior of the south, but who was really her worst enemy.

Mr. Davis further said: "Always remember, my little daughter, no wrong can ever make a right. The south does not wish her rights to come through dastardly murders, but through fair fights. This is the bitterest blow that could have been dealt to the southern cause. Lincoln was a just man and would have been fair and generous in his treatment of the southern people."

LIKE THE CORTELYOU PLAN.

(Baltimore Sun.)

What Secretary Cortelyou proposes is to correct in part the evil of taking too much in taxes from the people's pockets by depositing the excess in banks, to be loaned by the banks to their customers. Thus, money which should never have been withdrawn from the country's business channels will be restored during the secretary's good pleasure, much to the relief of borrowers, whose needs are urgent during the crop moving period. What is novel in the secretary's plan is the idea of distributing the treasury's surplus to the banks before excessive stringency and panic develop. Instead of waiting, as formerly, till business is greatly embarrassed.

JUST LIFE

The Way It Goes.

I've a longing in my heart for you, Louise.

'Tis a yearning that the years will not appease.

I have tried hard to forget you, For I have small chance to get you, Though I know it does not fret you, Sweet Louise

You remember how the evening flew, Louise.

While we lingered in the shadows, 'neath the trees,

There I told my adoration, Swore by all that's in creation

That you were my recreation, Ah, you tease.

You remember how you told me then, Louise.

That no other e'er could hold your hand, and squeeze,

And when I had turned away, You proved a deceiver gay,

Left me there and went away, Louise.

Our accomplishments are always criticised by those without accomplishments.

A peace of heart and mind is something, after all.

Baseball Pin Money.

Anent the world series:

Somery and Kilfoyle will clear \$50,000 on the Naps.

Frank Farrell's share of the swag is not less than \$60,000.

Connie Mack's Athletics will earn \$100,000 for their owners.

The St. Louis Americans' clean-up this year will be fully \$10,000.

The Detroit ball club will clean up \$50,000 or \$60,000 this year.

The Noyes, owners of the Washington club, will come out \$25,000 ahead of the game.

John I. Taylor of the Boston Americans will bank \$75,000 as his share of the baseball booty.

Charlie Comiskey of the White Sox will close the season with a balance of \$150,000 on the right side of the ledger.

OF HUMAN INTEREST

It is one of the great lessons of life it seems to me, to learn to take things as they come and still think everything is for the best.

Sometimes when things seem to go all wrong and we feel that life doesn't hold as much for us as for some others, all we need to do is to look around us; there is always some one who wouldn't care to change places with. In nearly every life, too, there is some bright spot even when unperceived by the casual observer.

Then too, it's all in the point of view—what would be happiness to some might be extremely commonplace to others. I have a friend who two years ago married a college professor and went to Spokane to live.

In a letter from her the other day she said: "I never dreamed that life could be so sweet—oh, I am living, living. My lines have certainly been cast in pleasant places and it seems that I have everything to live for."

Within the past year I have been privileged to go out to the county farm a number of Sunday afternoons when religious services have been held there by the different pastors.

Some of the faces have become quite familiar and one old lady came up to me last Sunday and with tears in her eyes said: "Oh, you never can know how happy I am this day—I have so much to live for."

In a flash the words of the letter received the day before came into my mind—almost identical and yet spoken under conditions that were as wide apart as the poles.

The one young, good looking, wealthy and with that greatest of guiding stars—love, with her day by day; the other old, decrepit, dependent on strangers for her daily bread, lonely and with nearly everything gone out of her life that makes for pleasure—and yet she was not utterly cast down for she still had some of the happiness that comes from within; and the great law of compensation came to her aid in enabling her to look beyond her present surroundings to something better and brighter "Just a little farther on."

NOW FOR A CORNER ON HAY.

(Seattle Times.)

With the view of controlling the price of alfalfa hay and to insure a minimum price of not less than \$6 a ton, which is equivalent to \$10 delivered, the ranchers of the Yakima Valley are perfecting an organization. Small produce associations formed in the outlying districts are seconding the movement. High prices paid for help and baling materials are urged as the reason for the organization. Of the present crop of hay practically none has been marketed, dealers refusing to quote prices at this time. The crop this year is unusually large, but to offset that fact, big demands have been made by commission men. That the efforts of the ranchers to control prices may be successful is rendered possible by the ready sales that apparently await all who have hay to offer.

THE GIANT'S STRENGTH

BY BASIL KING

(Copyrighted by Harper & Bros.)

George Trafford took his cigar from his lips and looked round at her over his shoulder.

"You seem to be lost in admiration of yourself, Paula," he observed. "You had a portrait last year by Carolus Duran, and one by Chartran the year before."

"I don't like either of them," she returned, her eyes searching the depths of her empty coffee-cup. "And yet they weren't considered to be what you'd call unfair to the original," he went on.

"I'm sure I don't know where you'll hang it," Mrs. Trafford complained, looking round the splendid room. "If you put another item on the walls of this house we'll smother."

"I was thinking of making it a present to George," "Oh, don't put the responsibility of stowing it away on me," Trafford cried. "Laura and I have already more stuff than we can handle."

"I don't know about that, George, dear," Laura argued. "It might be nice in years to come for Paul. We've got so little in the way of ancestral things to leave him. And they say that in forty or fifty years from now—that would be easily within Paul's lifetime—some of the great portrait-painters of the present day will have become what Hommey and Gainsborough are for us."

"It's a good while to look ahead to," Trafford laughed. "But I suppose if ancestors hadn't had fore-sight descendants wouldn't have privileges. Who's your man, Paula? Give us an American this time, won't you? Say Sargent, or some of those fellows."

"He is an American," Paula replied, "but he isn't Sargent. He's a new painter. I believe he has remarkable talent. We spoke of him one night at Monte Carlo. You told me about him, George. His name is Winslip."

Mrs. Trafford gave a little scream and let her coffee-cup fall with a crash on the floor.

"Paula Trafford," she cried, "if you want to kill me, do it now; don't let it be by inches."

"You do beat everything, Paula," her cousin observed, grimly, "for getting things on the brain. I'll bet fifty cents that you've been turning those Winslips over in your head ever since the subject came up, two or three weeks ago."

"Lady Alice knows them," Paula stammered, in excuse. "She says he's wonderful—and he isn't recognized—and his mother is blind—and they're so poor—and—"

"Goodness knows," Mrs. Trafford expostulated, "there are plenty of people the world without hunting up your father's enemies. I don't believe the portrait is anything but a pretext for—"

"Even Aunt Trafford, dear," Mrs. George interrupted, in her reasonable tone, "don't you think it's just what Uncle Trafford would like? Haven't you known him time and time again turn round on the beaten and the bitter and the sore and hold out the helping hand to them? Is there any one who knows better than he how to take the sting from hostility? And isn't it part of the responsibility of wealth—?"

"Oh, you needn't tell me!" Mrs. Trafford gasped, impatiently. She disliked so much having the higher way pointed out to her by Mrs. George that she often hurried in advance to take it. "I know better than any one what he is, and the sort of example he sets us. If to return good for evil is the motto of his life, it may well be that of ours. Paula, my child," she added, with a quick change of front, "if it be your will to help these people, do it. I will draw all objection. If you like, I'll pay for the portrait. I believe it would please your father, though I think we'd better not say anything about it. Yes, I will pay for it. I don't care what it costs."

"Thank you mother, dear," Paula said, rising, eager to escape, now that her point was gained. "I'd rather pay for it myself."

"All I beg of you," Mrs. Trafford cried, as Paula left the room, "is not to bring the young man here."

"But where can I have my sittings?" Paula questioned, from the doorway.

"Where you like. Have them in the Louvre or in Notre Dame, or anywhere else you please, but don't bring the young man here. I should faint if I saw him. Take a maid with you, take two maids, take ten maids if you will, but don't bring—the young man here."

"Do you think that's wise?" Trafford questioned; but Paula was already out of hearing.

Half an hour later her coupe turned from the Rue Mazarine into the narrow Passage de la Nativity and stopped before an ancient fortress-like gate. Traces of Renaissance sculpture were visible on the battered stone, while in a niche over the portal stood a crowned but time-worn statue of the Virgin and Child. When the footman clanged the gong a wrinkled old woman opened a small door cautiously. Paula descended and asked the way to Mr. Winslip's studio.

A minute afterwards she found herself in a spacious court-yard, paved with flat stone, which time had forced into various levels, the interstices being filled here and there with tufts of grass. Low, weather-worn gray buildings in the Renaissance style surrounded the courtyard on three sides. In the centre of the space the stone basin of a long disused fountain was gradually crumbling away, throwing slightly out of the perpendicular the elaborate wrought-iron tracery which rose above it, surmounted by a cross. Any unevenness, or streaks, or closed layers, or cones which are blemishes in texture, will obscure the light, and show up like the closer pattern in a curtain. "Back to your platform, Clarence, light and gay;

Jingle the jocular fares, nor think upon

The larks of Harry Lehr or Bath-House John,

For they are IT and you are still on pay.

So I have been sky-prancing all night long,

A-dragging car-conductors and their queens,

Clad in their laughing robes, to join the throng

That makes the Car-Barn function all the beans.

And say! I had a brainstorm just last trip

When I took Pansy's fare from Gill the Grip.

At midnight, when I got a gasp for lunch,

I rushed it for the Car-Barns just to lamp

And see the Creamy Charlies do the Vamp

And swing their Fancy Floras in the crunch.

I piped my Pansy in among the bunch

And asked her would she mix it with the Champ,

Wouldn't she like to join me in a stamp?

MORE PROMISES FROM MILWAUKEE

BIG SHOPS AND NEW DEPOT IS AGAIN TALKED

TO STOP EXTENSION WORK

Road it Is Said Is Now Rushed Beyond Its Capacity and Must Halt Work.

The Milwaukee road is sure to assist in booming the North side if they install the much promised new depot, there in the near future, and also enlarge their machine shops as they say. They expect to eventually employ nearly as many men as the Burlington shops. It is claimed by their representatives.

Work has been progressing rapidly on the Pacific extension of the Milwaukee road for some time, but they are at present crowded beyond their capacity and orders have been received by local officials to side-track all material for the extension until further orders.

About 30 trains of rails, ties and other material are sidetracked between here and Moberly and Edgely, where the work is now being carried on.

A bulletin has been posted which requires the promotion of eight brakemen to conductors, at once.

These men will all be taken off the La Crosse division which is between North La Crosse and Portage and many of the brakemen to be promoted will be well known north side railroad men.

The conductors "raised" will no doubt be sent to Edgely and Moberly to take charge of construction trains.

WILL TEST BIG ROASTER THIS WEEK

The work of installing the machinery at the St. Louis Iron Co.'s new plant at the Junction has so far progressed as to permit of a test of the big roaster this week. Several car loads of ore were shipped there several weeks ago for this purpose. The roaster which has a capacity for handling 300 tons daily, is a huge revolving tube, 75 feet long and six feet in diameter. The ore is first crushed to a 2-4 inch size, washed, screened and picked free as possible from impurities before it passes to the roaster where it is subjected to a red heat.

The 20-ton pump with a capacity of two million gallons per day has been received and the \$30,000 Westinghouse engine has been ordered shipped. Temporary power, however, will be provided by the engine formerly in use at the mines here. All the machinery when in full use will be of electrical construction and as complete as the latest mechanism in this line permits. The fuel used will be gas produced from coal.

The survey for the spur from Waukon to the mines has been completed and papers for condemning the right of way decided upon the ready for service upon the following parties: Owners of the flouring mill, S. H. Eddy, the Adams' estate, Peter Bleber, James Sweeney, R. A. Eaton and Gilman Nelson. The Iron company will build the line and equip it with engine and ore cars.

The building of the spur will be undertaken this fall, as will also the construction of a mile of track at the Junction necessary to convey the ore cars to the ledge 100 feet above the main line track to permit handling the ore all by gravity in its treatment at the plant.—Waukon (La.) Democrat.

FOUR BRAKEMEN NOW CONDUCTORS

Business is booming at the Burlington road, and four brakemen have been "set up" to the positions of conductors.

They are Messrs. E. C. Lokken, Emerson A. Stauffer, George L. Hickey and Harry Maxwell.

NORTH SIDE PROMISED SOME RELIEF FROM CROSSING DANGER

ROAD OFFICIALS OFFER CONFERENCE

SAY THEY ARE READY TO FIX "THE DEATH TRAP"

PROGRESSIVE LEAGUE ACTIVE

New Depot May Be Result of Their Effort and Many Other Matters Are Taken Up

The old question of taking steps to eliminate the danger at the Mill street crossing was again brought up at the meeting of the North Side Progressive league held last evening. A. B. Foster, who was appointed chairman of a committee at a previous meeting to take up the matter of changing the present situation, stated that he had written to the superintendent of the road regarding the matter and had received an answer in which the superintendent stated that he would be glad to set a date on which to meet the members of the committee appointed by the league and talk the matter over and try to arrange some plan whereby the present danger could be eliminated. He also stated that if necessary he would bring one of the road engineers along and make a survey to find just what changes would be best. The date for the meeting of the committee and the road officials has not been set yet, but will be done later.

May Build New Depot.

It is stated that C. L. Craft, the agent for the Milwaukee at this place, said that in all probability if the matter was pushed the road could be induced to change the present location and build a new depot near the Rose street crossing. In this case the Rose street viaduct would be widened in order to accommodate the increased amount of traffic that would pass there. If this is done the danger of crossing the tracks to the depot would be eliminated, but the street cars would still be forced to cross there. It was suggested that the tracks of the car company could be changed so as to have them cross at the viaduct, but this had previously been discussed and it was found that for certain reasons and objections could not be done.

Move Switches.
A suggestion for clearing the Mill street crossing of some of its danger was made by William Dwyer and was received favorably by the majority of the members present. The idea was to move the switches about ten blocks further east in order to have the most of the switching done there. It is a well known fact that the majority of the accidents are caused by street cars being struck by switch engines and freight cars, and the idea is considered a good one.

In any case strenuous effort has been made and will continue to be made by the residents of the North side to secure some means of riding the North side of this veritable death trap and in all probability some way will be found by which the people who are forced to travel between the North and the South sides can do so without taking their lives in their hands, so to speak.

Want New Light.
It was also decided at the meeting to have a representative appear either before the council or to fix it with the North side aldermen to have a light put at the corner of St. Cloud and Rose streets. This corner, which is the turning point of the car line, is extremely dangerous at night and is one of the darkest on the North side. Another danger is that all the runs made by No. 2 fire company to the lower end of the North side are all made around this corner and this increases the danger. In all probability the request for a light will be granted by the council.

Dubuque Market Success.

The subject of a market place for La Crosse was brought up and a letter was read that had been received by one of the members from a resident of Dubuque, in which he stated that the market at that place was successful and he urged the league

ADOLF MOSER IS HURLED FROM CAR

NORTH SIDE MAN FALLS WHEN CAR HITS A CURVE

SEVERE GASH IN HIS SCALP

Physician Is Called, But Victim of Accident Is Not Believed to Be Seriously Hurt.

Adolf Moser, a well known North side man, was seriously injured about 7 o'clock last evening by being thrown from a street car at the curve just north of the power house. At the time of the accident it was not thought that he was very seriously injured as he rose on his feet and went into the offices at the power house. Doctor Callahan was immediately summoned and found the man in a dazed condition. He ordered him taken to his office where he made an examination and dressed the wounds.

The injuries consisted chiefly of a severe gash across the crown of his head and minor injuries to his elbow.

According to the story told by Mr. Moser after he had recovered from the shock, he had just boarded the car to go to his home on the North side and was reaching in his pocket for his fare when the car struck the bend just north of the power house, causing him to be thrown from the platform. He struck head foremost on the pavement. After the wounds were dressed he was kept at the office of Doctor Callahan until he had recovered sufficiently to be taken to his home. It is not thought that his skull is injured.

Mr. Moser is well known on the North side, living at 929 Hager. He is employed at the Langdon-Boyd company market on Main street.

BURLINGTON MAN GOES TO "G. N."

According to the well founded reports heard in railroad circles, A. M. Gruber, general manager of the Burlington, well known all along the Burlington line, is to leave his present office to become either general manager, or first vice president of the Great Northern. This change comes largely in the way of a promotion under his old employers as J. J. Hill owns both roads.

To succeed Mr. Gruber in the management of the Burlington three candidates are mentioned, H. D. Judson, superintendent of the Illinois; W. B. Throop, superintendent of the Iowa district, and H. E. Byram, superintendent of the Nebraska district.

to use its best efforts to secure one for La Crosse.

Second Visiting Day.
Another date for a visiting day was set by the league and the members will meet at the No. 2 engine house on St. Cloud street at 1 o'clock Wednesday and several North side manufacturing plants will be visited on this state. It is the plan to try to visit the Summit Stove works, the La Crosse Rubber mills, the Monitor brewery as well as a number of other North side concerns.

To Hold Banquet.
It was decided at this meeting to hold a Progressive league banquet, and a committee was appointed to arrange the details and set the date of the affair which will be announced later.

The matter of drawing up resolutions condemning the Vote-Berger company for moving from the North side was not taken up at the meeting.

PHYSICIANS CURE SKIN WITH SIMPLE REMEDY.

Noted Eczema Specialist Comments on a Proven Specific for Skin Diseases.

Physicians everywhere continue their praise for ordinary oil of wintergreen in a wonderful specific for Eczema and other itching skin diseases. This liquid, pure and clean as water, externally applied has instant effect. A few drops on the burning itching sores causes instant relief, and a short continued use gives a complete cure.

Dr. C. B. Holmes of Silver City, Miss. is so enthusiastic about this remedy D.D.D. Prescription that he declares in a letter to the D. D. D. Company of Chicago that this great remedy is as near a specific for Eczema as is quinine for malaria. "I have been using your D. D. D. for four years with gratifying results," writes Dr. Holmes.

There are thousands of other physicians who use D. D. D. Prescription, the oil of wintergreen specific. D. D. D. cures and it is so clean to use. If we did not know what D. D. D. will do we would not recommend it to our friends and patrons.

HEALTH OFFICERS SAY

Common Colds are the Primary Cause of Consumption

The ravages of the dread "white plague" has aroused in the national health departments the keenest alarm and every effort is now being put forth to prevent its further spread. A most prominent physician on the advisory board recently summed up the situation in a very simple manner by declaring that if people would give common colds the proper attention the increase of consumption would be materially checked. A neglected cold weakens the entire system and especially the pulmonary organs and renders them liable to the attack of the tubercle germ. He also gave the formula for a very simple remedy for colds which he claimed if generally known would prevent an enormous amount of suffering and eventually save many lives. The formula is as follows:

Two ounces of glycerine; one half ounce concentrated oil of pine; half pint of good whiskey; this is to be used in doses of a teaspoonful every four hours the bottle shaken well each time.

He claims this will cure any cough that is curable and frequently break up a severe cold in twenty-four hours.

He cautions that care should be taken to get the real Concentrated oil of pine which any first class drug store will supply. It is put up in airtight wood boxes for dispensing, thus avoiding the bulk oils and patent medicine imitations which are insubstantial and often injurious.

MISS SCHNELLER IS SURPRISED

Last evening Miss Hattie Schneller was pleasantly surprised by a party of her young friends at her home on Caledonia street. There were about fifteen in the party and they all came loaded with good things to eat.

Music and games took up the greater part of the evening.

Several piano solos by Miss Schneller, at which she is a genius, were enjoyed by the merry makers.

SPATTERED ENGINE

TAKES TWO HOURS TO PICK OFF ATOMS

Trains Delayed Yesterday by Peculiar Accident

The Milwaukee train No. 3 which arrived at the north side about 6:55 a. m. was about an hour and a half late yesterday morning.

Upon investigation it has been found that the train met with a serious accident on the Chicago division where it ran into a team, killing one of the horses, and the driver, who was so entangled in the machinery of the engine that it required about two hours and fifteen minutes' work to remove him from the engine.

Some of the time was made up on the Milwaukee & La Crosse divisions and the train reached La Crosse a little over an hour late.

The engine on the Chicago division is changed at Milwaukee and the name of the engineer at the throttle could not be learned.

He gazed upon her in fond admiration. He loved her to distraction. Lovers had loved before, lovers might love again, but no lover might, could, would, or should love as he loved Dora. The sun shone Dora, the birds sang Dora, the wild flowers in the hedges, oh! they were all Doras to a bud. And then Ferdinand exclaimed with startling suddenness: "What a fine world ever induced you Dora, to care for a fellow like me?" "I really don't know, but I threaten to send me to a brain specialist."

Out of Sight.

"Out of sight, out of mind." is an old saying which applies with special force to a sore, burn or wound that has been treated with Bucklen's Arnica Salve. It's out of sight, out of mind and out of existence. Piles too and chilblains disappear under its healing influence. Guaranteed by O. T. Erhart, Druggist, 25c.

The state of New Jersey has expended thousands of dollars in its war upon the mosquito plague and appears to be gaining.

FRANKLIN CLUB DEBATE TONIGHT

A large attendance is expected this evening at the Franklin club rooms in the Fjeldstad building, Caledonia and St. Paul streets, when the subject, "Resolved, that the Immunity Bath given the Aiton road by the government was justifiable," will be discussed.

The affirmative will be discussed by H. L. Taylor and the negative will be defended by Human office Charles H. Berry.

It was supposed that a mock trial was to be given this evening in which Assistant Postmaster C. C. Looney was to figure prominently and receive trial for moving to the south side.

The attendance of the club has been poor recently and a large attendance is expected to be present this evening.

NORTH SIDE BRIEFS

Gibby Dahlby, a well known North side man, has just returned from Montana, where he has been for the last seven years. He will spend some time visiting his parents and friends here.

Mr. Walter West has returned to Minneapolis, where he is employed.

Mrs. R. J. Chase of Seattle, Wash., is the guest of her niece, Mrs. D. H. Norton and family at 813 Caledonia street.

Miss Cotwell who has been visiting at the home of Mr. and Mrs. Maseleson for some time returned yesterday to her home in St. Paul.

It has been announced that city part of the Vote-Berger compares plant will move to their new location on the South side for the winter.

The wool finishing departments together with the offices will remain on the North side while the rest of the plant will be moved down.

JAPAN'S POSITION.

(New York Times.)

It must be remembered that the situation of the Japanese government is not much if any less difficult than that of Great Britain or the United States. It is, on the face of things, entirely natural that on its entry into the family of nations Japan should demand for its subjects the same treatment that is accorded to the subjects or citizens of other governments. But when the Japanese government faces the question, which ultimately may come up, whether it will try to enforce this demand by force of arms, it will see that that involves its very existence as a nation. The knowledge that at the close of all unsuccessful negotiations on the general subject, this alternative must be encountered will greatly affect the policy of the Japanese.

The visitors had arrived with only ten men, and were looking round the village for a substitute. For some time the search was in vain. At last a young fellow, a typical rustic, volunteered by the captain whether he understood the different rules of the game. "Well," he exclaimed, "I ain't much of a batsman nor a bowler, and I'm rather butter-fingered when it comes to catchin', but I can tell yer one thing: I shall be first-class substitute when yer go to lunch."

When faith sees the glory of character at the end of the way it does not need a fence to keep it in the off.

Breakfast Monotony

—the same old chops, or bacon and eggs, and biscuit, for breakfast—may be avoided. Try.

Fruit (preferably cooked),
Four teaspoonfuls of Grape-Nuts with cream or milk,
Eggs, one or two poached or soft-boiled,
Cup of Postum Food Coffee with cream and sugar,
Toast, one or two slices nice and crisp.

This will give you an ideal combination of the three principal food elements—proteids, carbohydrates and fats—in the most easily digestible form.

And it means a wide awake individual with energy and a clear head to make a stir in the world; it replaces that dull, sluggish feeling which so often follows the too-much-meat-and-biscuit breakfast.

The man who has work to do can't afford to be overloaded with the kind of food that requires undue effort on the part of his digestive organs for a time and leaves him with a "gone feeling" just about the time of day when he needs his best mental and physical powers.

Grape-Nuts food affords real strength of mind and body with little effort (or waste force) in getting it converted in the system into energy and staying-power—the power to act and to endure.

RECLAIMING EASTERN LANDS

(Chicago Tribune.)

A great deal has been published during recent months about the work which is being done in the West in making lands available for agricultural purposes which have been of no value because of the lack of water.

Engineering enterprises of remarkable character are being pushed. Rivers are being deflected from their accustomed channels. Dams are being built for the creation of storage reservoirs against the time of need. Tunnels are being cut through mountains that water may be carried to arid regions.

Each step suggests others that might be taken, until there is hardly anything deemed impossible by the enthusiastic friends of irrigation and reclamation. The recent meeting at Sacramento marked the high tide of zeal in this movement to add thousands of acres to the land of the United States available for agriculture.

The call has now gone forth for another meeting at Baltimore which will give its support to enterprises calculated to do for the Eastern states what the irrigation movement is expected to do for the Western. The National Drainage association is interested in the drainage of the swamps and overflowed lands in the country. The benefits of activity in this direction would by no means be limited to the Eastern states. There are large stretches of swamp lands all the way from Maine to Texas which might be reclaimed for cultivation.

Some of these have attracted attention for many years. Projects for draining the Dismal swamp and the Everglades have found favor from time to time, and many smaller enterprises have been supported all along the Atlantic slope. Local drainage associations have been organized to further these measures. Some of the states have manifested interest. In a number of instances private investors have found rich returns for their money and their faith in the profits from reclaimed swamp lands.

Turned Down.

Gobsa Golde spoke anxiously. "I understand," he said, "that my name was brought up last evening at the Knickerbocker club."

"Yes, that is true," said L'Oignon. "And would you mind telling me—er—what action was taken in the matter?"

"Not at all. The secretary was instructed to purchase six quarts of blackballs for the use of the members."

Prescription Talk No. 9

Some time ago I had in my window a \$60,000 show. I had piled up in it over 100,000 prescriptions which I had filled up to that time here. Some doubted my statement regarding the \$60,000 value. But the prescriptions ranged in price from 10c to \$1.50 and averaged 60c. At present my prescription No. is over 105,000. In order to do this phenomenal prescription business I had to study two points—to employ the utmost care and caution in compounding, and to make my prices reasonable. By the number I've filled, and the fact that there is not one error on record, you will see, I've been successful and that you will be absolutely safeguarded to let me have your prescription business.

Do You Think For Yourself?

Or do you open your mouth like a young bird and gulp down whatever food or medicine may be offered you?

There is an intelligent thinking woman, in need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is one tried and true honest medicine of known composition, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible endorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration?

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

SUPERINTENDENT TELLS OF WORK

ADDRESS OF CITY MISSION IS HEARD BEFORE MEETING

POINTS OUT NEEDS IN CITY

Improvement of This Line of Work Would Accomplish Great Good
—Work of the Past

Following is the interesting report of Supt. A. M. Ivey of the City Mission, addressed to the directors of the mission, the pastors and citizens, as read before the annual meeting held at the Presbyterian church:

Dear Brethren:
As we come together today to hold our first annual meeting of the Union City Mission of La Crosse and pause for a moment and take a backward look we are made to rejoice because some progress has been made and some victories won. To God we give the glory. For He alone binds up the broken hearted and sets the captive free.

We believe this movement has been of the Lord and that His stamp of approval has already been put upon it, in the salvation of men.

We realize that the work in which we are engaged is no easy task or dress parade movement, and were it not for the blessings of God, and the realization that He knows and understands all things and that He has promised never to leave nor forsake, and for the kind words of encouragement from Christian people, our hearts would have fainted within us and we would have given up in despair. For only those who have been personally connected with this kind of mission work know the amount of grace and courage it requires to stand

WIFE OF

(Continued from Page One.)

most prominent families. She is the mother of a 2-year-old child, and had the entire into the most exclusive social circles of the Wisconsin city.

Yet, with the usual temptations to crime far removed from her by her antecedents and her position in life, she has entered into a campaign of burglary, by her own confession. Her methods were not the miscellaneous pilferings of the kleptomaniac, but the well planned tactics of the person who makes robbery a business.

"I never thought of stealing anything until last spring," she continued. "I advertised for a nurse maid to care for my 2-year-old daughter while I was still in Milwaukee. A young woman replied to the advertisement. While talking to her I excused myself for a moment and left the room. On the table in the room I left a purse containing a large sum of money.

"A moment afterward the thought flashed into my mind that the woman could easily steal the purse and leave without my knowing her identity. The idea had evidently not entered the nurse maid's mind, but it has been hammering at my mind ever since.

Theft Looked Easy.
"The ease with which a woman could steal and escape detection was the thought that forced itself upon me. Try as I would I could not escape it. Wherever I went opportunities to steal presented themselves to me, and finally I fell."

Her rich dress appeared pathetically incongruous in the matron's quarters of the police station among the delinquent girls and painted women who stood at a distance.

"I didn't need the money," she continued. "My husband gave me everything I needed. The colored man helped me, and I never thought that we would be caught, it all seemed so easy."

Just Bad, She Says.
"There's something bad in me I can't control," was her only excuse, as she poured out her miserable story to Captain of Detectives O'Brien yesterday. "I don't know why I did it. I tried to control myself, but failed. I lost my grip and went under."

Sobs interrupted the narrative. Bitter repentance had come to her and she begged for sympathy.

"Say something kind to me," she wailed when she had finished the confession.

"I've sinned and confessed, and now I'm suffering—suffering! Life, which I loved so dearly, seems all changed and dark now. Say something kind to me, please."

More than that, she has allied herself with a negro ex-convict, in order to attain her ends. She accepted this outcast as a colleague and close associate in crime, dividing with him the money for which he pawned the jewels stolen by her.

Steals from Many Homes.
She has entered many homes in Chicago and Milwaukee and nonchalantly carried away the family jewels. Offering herself as a nursemaid or servant was her favorite method of gaining entrance.

Despite the woman's desire to share her knowledge of her crimes she jealously refused to divulge the name of a male companion with whom she enjoyed numerous automobile rides and gay dinners at downtown restaurants.

"Ralph Smith," her supposed companion, remains a mystery to the police. Jones, the negro ex-convict, was used to carry messages to Smith at various drug stores and cafes in the South Side.

"Ah don't know Smith," Jones persisted last night. "About two weeks ago I carried a note to him in a

Ten Boys and Only One Girl Paroled During the Past Year, According to Report.

La Crosse has nineteen minors—five boys and fourteen girls—in the state industrial schools, according to the reports from these institutions just received by Judge Brindley. The boys are confined in the Wisconsin Industrial School for Boys at Waukesha, Wis., and the girls at the Home of the Good Shepherd, Milwaukee, Wis.

During the year ten boys were paroled and returned to their homes, while one was sent to the Green Bay reformatory. Only one girl was paroled from the Good Shepherd's home.

The bill of the county for the maintenance for boys is \$607.65, according to the report of A. J. Hutten, the superintendent. No bill is attached for care at the Home of the Good Shepherd of which Mary J. Berry is superintendent. Following are the boys confined at Waukesha.

Herbert Sweet, paroled; Ingwald Olson, paroled; Joe Novak, paroled; William Cichowski, paroled; Henry Guillaume, paroled; Frank La Fleur, paroled; Joseph Johnson, paroled; Raymond Bennett, transferred Green Bay reformatory; Normal Larson, paroled; Charles Williams, paroled; Eddie Lee, Stephen Zolcack, John L. Ferris, Edgar Edberg, Fred Thoenes, paroled; Fred Altrook.

Following are the La Crosse girls in the school for girls at Milwaukee:

Caroline Stelt, Cora Ryder, Carrie Cogswell, Anna Rossow, Alma Goll, Emma Higgins, paroled; Nancy E. Maxon, Leone Allendorf, Bertha Childers, Hazel Johnson, Maud Smith, Lillie Losching, Selma Kanutsen, Marvel Burdick, Anna Petter.

ODDS IN LA CROSSE FAVOR THE CUBS

Local followers of the Cubs were swept into a frenzy of delight, when the victory of the Chicago Nationals over Detroit Americans in the second game of the series for the baseball championship of the world was flashed across the wires yesterday afternoon. Not only did the victory give them the "pot" and bets for yesterday, but put the followers of Murphy's team in a good position to walk off with the money on the entire series.

Betting assumed a different aspect after the result of the second game. Odds heretofore \$5 to \$4 on the Cubs were changed to \$20 to \$15 with the short end on the Tigers. Even at this figure few betters were found, followers of the American leaguers confidently expecting better odds, or a victory today which will put the teams on an even footing.

If Detroit takes today's game, it is expected that betting odds will shift to even, or give Detroit the edge for the next two games will be played in the city between the Great Lakes.

The defeat of the Mighty Mullen by the Plugger Pfeister yesterday took some of the spirit out of the Tiger enthusiasts, for Mullen is rated as the best on the twirling staff of the Tigers, although Donovan is ranked in the same class by many. Pfeister has been pitching wonderful ball for the Cubs, and may be used again. Manager Chance still has Lundgren, Reulbach and Brown to put in to stem the tide, and if one of these stars is able to hold Detroit down in the first game he pitches, it is probable he will be used again.

In the batting pool, Sam Crawford walked off with the cash on the first game, and Rossman was the choice of the winner yesterday. In the finals Davy Jones, the Tomah, Wis. boy, is in the lead with a total of five. However, he has not clinched the place for the man who drew his card, for Slage of the Cubs has four in two games, Sheppard three, and Little Johnny Evers has accumulated four safe swats. Rossman, first baseman, for Detroit, had three singles yesterday. In some quarters he was given credit for four, but the official score says three. However, Rossman walked off with the "pot" for his choice yesterday.

THINK HOWARD IS PROFESSIONAL CROOK
James Howard, who is serving a 45 day term at the county jail for larceny is believed by the local authorities to be a noted crook wanted in other places on charges. Some venture the opinion that he knows something of the postoffice robbery at Mindoro a short time ago.

MRS. CAMERON IS AMONG MAJORITY

WIDOW OF SENATOR CROSSES THE GREAT DIVIDE

WAS DISTINGUISHED WOMAN

Prominent Figure in Society and One of the Leaders of the D. A. R. Died Last Evening

Last evening, at 8 o'clock, after an illness of nearly two years, contracted while in New York in the spring of 1906, occurred the death of Mrs. Mary Baker Cameron, widow of the late Angus Cameron, at her home, 424 South Fourth street, at the age of 73 years.

Mrs. Cameron was taken ill in New York and was brought to her home in this city soon afterwards, and has been ill since.

The end was not entirely unexpected as she had been growing continually weaker for some time, but announcement of her death last evening nevertheless greatly grieved her many friends and relatives in this city.

Since the demise of her husband in 1897 she has resided alternately in New York and at her home in this city.

Deceased was born at Urbana, N. Y., in 1835 and in 1855 was united in marriage with Angus Cameron, who was at that time a promising young lawyer. After a residence of two years at Buffalo they came, in 1857, to La Crosse, which was at that time still but a frontier village.

Mr. Cameron, however, took advantage of the growing town and soon found it necessary to assume a leading role in the social, civil and industrial life of the coming city.

He was a senator from this district to the Wisconsin legislature in 1863, 1864, 1871 and 1872, and was a member of the assembly during 1866 and 1867, in which year he served as speaker of the house.

For nine years he was regent of the state university, acting as such from 1866 to 1875, and during the ten years from 1875 to 1885 he served as a senator at the national congress.

Mrs. Cameron was an able helpmeet to her distinguished husband and added much to their hospitable home by the charm of her social graces. Not limited by nationality or diversity of circumstances she had formed a large circle of friends, entering freely into the social life of this city and participating in the social life at Washington, during the senator's long term as a senator.

She was also one of the most distinguished members of the Daughters of the American Revolution and was vice-president of that organization for a term during the 90's, serving on many important committees at the conventions in Washington.

DARING HOLD-UP NEAR BROWNSVILLE

PROMINENT MEN ROBBED OF TWENTY-FIVE DUCKS

AT LEAST THAT'S THEIR STORY

Maybe They Are Finding an Excuse for Failure to Bag the Game; Aged Caledonian Dead

CALEDONIA, Minn., Oct. 10.—(Special.)—A daring hold-up was planned and carried out successfully near Brownsville in this county Monday evening. As Clerk of Court D. P. Stewart of this city and Remi Enos of Brownsville, were returning home after a successful day's duck hunting, and were walking along the railroad track near the Enos home, suddenly two men sprang upon them from behind, one of whom seized Enos and the other seized the ducks, which Stewart was carrying. Securing the ducks they ran down the railroad track, into their boat and were out on the river before Stewart and Enos recovered from their astonishment. The bunch of ducks numbered twenty-five and the hunters were much chagrined over their loss. It was so dark that they were unable to recognize their assailants, but it is supposed that they were a couple of evasive duck hunters who having been unsuccessful took this means to secure a bunch of ducks to show their friends. Suspicion points to Chief "Many Lies," a well known character, whom the hunters had met during the afternoon in company with another well known sportsman of Caledonia, and who at that time had been unable to secure any game.

Old Resident Dead.
Mrs. Sarah A. Huych, probably the oldest resident of Houston county, died at the home of George N. Blexrud, near this city Tuesday afternoon. Deceased was born in 1812 and was 95 years of age. She was one of the pioneer school teachers of Houston county. She is survived by her husband, Elkanah Huych.

Court Calendar Out.

The calendar for the October general term of the district court to be held in this city beginning Oct. 15th, has been prepared and is made up of nine civil cases, which, with the attorneys for the respective parties are as follows:

Knud Omodt (G. W. Rockwell) vs. Chicago, Milwaukee & St. Paul railway company (Harries & Dorival).
Northwestern Ranching company of Indianapolis, Ind., (O. K. Dahle) vs. Michael J. Driscoll (Harries & Dorival).

Louise Neu (Wolfe & Wolfe) and James O'Brien vs. Louis Helm and another (O. K. Dahle & F. A. Duxbury).
Matilda J. McCan et al. (Harries & Dorival) vs. Julius Hanke (James O'Brien).

EDDY KONETCHY IS BLANKED AGAIN

Eddie Konetchy was blanked for a hit the second time in as many days in the post season series for the baseball championship between the Browns and Cardinals yesterday. The La Crosse boy had eleven chances, but missed one and received an error. This was the only manner in which he participated in the game.

S.S.S. NATURE'S TONIC

Every one should take a tonic in the Spring; their systems require it. The blood has become thick and sluggish with the accumulations left in the system from the inactive, indoor life and from the heavy, rich foods of the Winter season. The blood, being in this unnatural and disordered condition, is unable to furnish the body with the increased amount of nourishment necessary for the more energetic life of Spring and Summer, and the system suffers from debility, weakness, nervousness, indigestion, loss of appetite, and many other unpleasant symptoms of a disordered blood circulation. When the system is in this run-down and disordered condition it is not safe to take unknown concoctions, sarsaparillas, compounds, etc., because they usually contain potash or some other equally strong and harmful mineral ingredient, which acts unfavorably and often dangerously on the depleted, weakened system at a time when it needs gentle and natural stimulation to throw off the impurities and recuperate its lost energy. S. S. S. is appropriately called Nature's tonic. It is made entirely of roots, herbs and barks from the great storehouse of forest and field, selected for their purifying and health-restoring qualities, and as it does not contain the slightest trace of mineral in any form it is perfectly safe for young or old. S. S. S. acts directly on the blood, ridding it of all impurities and poisons, and restoring the lost properties of rich, nutritive strength so that it is able to supply the system with the healthful, invigorating energy needed to pass the trying season of the year. Its action is the most pleasant, prompt and satisfactory of all tonics, and those who feel the need of such a medicine will do well to commence the use of S. S. S. at once. S. S. S. restores lost energy, relieves the tired, worn-out feeling, helps the appetite, aids digestion, and adds tone and vigor to the system. THE SWIFT SPECIFIC CO., ATLANTA, GA.

REDUCE YOUR FAT

Rengo Rapidly Reduces Excess Fat Without the Aid of Tiresome Exercises or Starvation Diet.

COSTS NOTHING TO TRY.

Rengo will reduce excess fat and build up the strength and health of anyone who eats it regularly for a short time. It is a product of nature, delicious to the taste and safe and harmless in all its properties. It will not injure the digestive organs as so many drugs and medicines do.

This Illustration Plainly Shows What Rengo Has Done.

Rengo requires no exhausting exercises or starvation dieting to help it out as so many of the so-called fat remedies do. You can go right ahead and attend to your regular daily duties. It compels proper assimilation of the food and sends the food nutriment into the muscles, bones and nerves and builds them up instead of piling it up in the form of excess fat.

There is nothing "just as good" as Rengo. For sale by all druggists at \$1.00 per full sized box, or by mail prepaid, by The Rengo Co., 3185 Rengo Bldg., Detroit, Mich. The company will gladly send you a trial package free by mail, if you write them direct to Detroit; no free packages at drug stores.

For sale and recommended in La Crosse by O. T. Ehrhart's Red Cross Drug Stores and C. F. & L. Kunkel.

MINNESOTA AND THE NORTHWEST

TWO IN PRISON; BIDE TIME TO DIE

ONE UNDISTURBED AT SIGHT OF NOOSE.

OTHER BEGINS TO BRACE UP

Northern Minnesota Murderers are Locked in Same Cell to Wait Moment They will Swing

BEMIDJI, Minn., Oct. 10.—Since the sentence of death was passed upon Martin D. Munn and Peter Mathieson last Saturday afternoon, both have been confined in the same cell on the second floor of the Beltrami county jail. A watch has been placed to carefully guard the cell, and this watch will be maintained, at all hours of the day and night, until the time set for the execution of the condemned men, or until they may have been granted a new trial or given a lighter sentence. To Julius Dahl and Andrew Johnson has been assigned the duty of watchmen. They will serve in eight-hour shifts.

After sentence was passed on Munn, he gradually broke down, and when taken from the court room, he grew weaker. As he entered the door of the jail, he collapsed and was carried to his bed in the cell, where he lay until a late hour Saturday night, sobbing and moaning and being unable to eat supper. Since Saturday night, however, he has "braced up" and is more composed. Mathieson's actions are different from those of Munn. The man who was sentenced to hang for killing Johanson was composed after being taken back to his cell, and beyond crying for a few moments he appeared to be little affected. He acts regularly and heartily, and one never would think that the innocent-looking individual who is a cellmate of Munn was a condemned murderer.

NORTHWEST BRIEFS

CHASKA, Minn.—Rev. Arthur Schwartz of Casselton, N. D., has been appointed to fill the pulpit of the Moravian church, the vacancy being caused by the resignation of Rev. Robert Brenneke, pastor here for four years. Rev. Schwartz will preach his first sermon on Oct. 20.

HARMONY, Minn.—While driving near the Plymouth Rock church last Sunday evening, Mr. and Mrs. E. W. Pust were the victims of a bad accident. The buggy went over a high embankment. Mrs. Pust sustained a broken leg and Mr. Pust was severely bruised.

FORT DODGE, Ia.—Thrown into the swift current of the Des Moines river by the upsetting of their car while returning at night from a river trip to the town of Humboldt, Gilbert and John Gray and V. E. Hale were forced to swim for their lives. All had a hard struggle in the darkness, and reached land with difficulty.

WESSINGTON SPRINGS, S. D.—The second annual county fair has closed a successful session here. The exhibits of agricultural products and fruit were exceptionally good. The fair association contracted for a fifty-acre tract east of the city to be improved as a permanent fair ground.

BARNESVILLE, Minn.—Monday afternoon at the home of Mr. and Mrs. R. T. Evans of Hawley, Minn., friends and neighbors celebrated the fiftieth wedding anniversary of the host and hostess.

BROWNTON, Minn.—L. P. Harrington, who has held the office of county superintendent of schools of McLeod county for eighteen years, has resigned to accept the principalship of the agricultural school at Crookston.

LE SUEUR, Minn.—"Tony" Miller, a character about town, was found by the trainmen of a train on the Omaha laying nearly submerged in a pool of water near a trestle from which he had apparently been knocked by a passing train.

DELANO, Minn.—S. S. Ball, a widower and veteran of the civil war, committed suicide Saturday last by shooting himself in the head. Ball roomed in the house alone and his death was not discovered until Wednesday morning. One son, employed by the Northwestern Telephone company at Minneapolis, survives him.

CHISAGO CITY, Minn.—Oscar Johnson, a St. Paul young man, was stabbed in the arm during a fight at a dance held here, and was severely wounded. The man who made the assault has not been arrested.

DULUTH, Minn.—Claiming that the United States Steel corporation and Sheriff Bates entered into a conspiracy to deputize guards during the recent strike who were not citizens and not responsible persons, John Mozer of Chisholm has brought suit against both the sheriff and the company for \$5,000 damages. Mozer has his hat shot off during the strike while driving along the street.

EVELETH, Minn.—Geo. Church, 24 years old and employed by the Duluth & Iron Range railway, was run over and killed by a train at Adams Mine station.

HOLD FARM FESTIVAL.

HARMONY, Minn., Oct. 10.—An agricultural fair was held by the children of the public schools at the school house here. A large and fine exhibit of fruit, vegetables and flowers was shown. The profits will be used for decorating the rooms of the school building.

SUED FOR DIVORCE; WHILE IN PRISON

CONVICT IS DEFENDANT AGAINST HIS WIFE

IS SERVING TEN YEAR TERM

Hold-up Man Meets With Difficulties Even After He Lands Behind Penitentiary Bars

STILLWATER, Minn., Oct. 10.—Ida A. Bordeaux has sued Alfred I. Bordeaux for divorce in the district court in Minneapolis, alleging conviction of a felony as the cause. The papers were served in the state prison yesterday by a local deputy sheriff.

Mr. Bordeaux was a hold-up artist who was sent to the prison under a sentence of ten years for grand larceny in Minneapolis, his sentence dating from June 30, 1902. She is 30 and he 31 years old. They were married in Houlton, Wis., across the river from this city, Jan. 17, 1895, and have four children, ranging in ages from 11 to 7 years.

The wife asks permission to resume her maiden name of Ida A. Allen.

GANG OF FIVE BEAT AND ROB TWO MEN

STILLWATER, Minn., Oct. 10.—Two Frenchmen were beaten and robbed in the village of Somerset, Wis., by five Italians. Sheriff Kalley of Hudson was notified and with four deputies came to this city and enlisted the services of Sheriff Ostrom and Deputy Jarchaw of this city in a search for the assailants.

It is said that one of the Frenchmen was beaten almost to death and a crowbar rammed into his mouth and that he was robbed of his watch and money. The other Frenchman was beaten, but not so badly, and robbed of \$18.

Several people on the street saw the attack, but were afraid to interfere when a display of guns was made.

ROBS THE CHURCHES

PARIS, Oct. 10.—A great sensation has been caused by the remarkable confession of Antoine Thomas of Clermont-Ferrand, who was arrested, with his mother and his brother, charged with complicity in the theft of the famous cope of Orléans, which belonged to the state and was valued at \$120,000, from the Church of Ambazac, near Limoges.

Thomas, who gave himself up to clear his mother and brother, declares that after the passage of the church and state separation law and the taking of the church inventories began, antiquaries of Paris, some of whom are millionaires, hired him and others to go through the country and bribe the parish priests to surrender the relics and substitute counterfeit ones which could later be turned over to the state. Thomas estimated the amount of his robberies at \$400,000.

ROLL CALL LAST EVENING.

The annual roll-call at the Congregational church took place last evening. Every member of the congregation who possibly do so usually attends the annual meeting when all the names are read and special notice taken of the friends who have gone to the Great Beyond during the past year.

TO THE NATIONAL CORN EXPOSITION
Via Chicago, Milwaukee & St. Paul Ry.
The National Corn Exposition will be held in the Coliseum at Chicago, October 5 to 19th. It will be the largest exposition of its kind ever held and interesting to all, but particularly to corn growers and those in any way concerned in corn. Over 50,000 in farms, pianos, buggies, dinner sets, watches, etc., will be given to exhibitors in the state classes, which are not open to professionals. Over \$16,000 in cash prizes alone will be given on ten and thirty-day exhibits. A special prize of \$1,000 will be given for the best fifty (50) ears of corn shown at the exposition. Numerous other prizes will be awarded for other exhibits in connection with the growing of corn.
Numerous special attractions have been arranged for, such as the "March of Corn" and an old-fashioned husking bee and dance. Something special will be going on all the time. Music in the afternoon and evening will be furnished by the Illinois Naval Reserve Band.
Excellent train service to Chicago is offered by the Chicago, Milwaukee & St. Paul Railway. Buy round-trip tickets, good to return any time within thirty days. See nearest ticket agent for information on rates and train service. F. A. Miller, General Passenger Agent, Chicago.

WISCONSIN NEWS

SABBATH BALL GAME PARENT OF CRIME

STARTS MANY ON DOWNWARD PATH TO SIN

PASTOR MAKES THIS CHARGE

Urges Campaign Against all Sunday Sports—State Baptists Elect Officers for Year.

FOND DU LAC, Wis., Oct. 10.—"Nine-tenths of the criminals who fill our prisons took their first steps on the downward path by attending Sunday baseball games."

This was the declaration of the Rev. J. B. Davidson of Milwaukee in an address before the Wisconsin Baptist Ministerial union yesterday.

"Criminology has proven that Sunday sports are the chief weakeners of the foundation of character, and I earnestly urge the members of the union and religious workers to assist in stamping out this evil," continued Mr. Davidson.

Resolutions recommending that Gov. Davidson and the adjutant general of the state be asked to take steps to prohibit Sunday target practice by members of the state militia; that no minister of the faith should preach the Gospel for money, but that pastors be paid better salaries, owing to the increase in the cost of living, were adopted.

The Wisconsin Baptist Ministerial union elected the following officers for the ensuing year: President, Rev. Edward Babcock, Eau Claire; vice-president, Rev. W. T. Paulin, Green Bay; librarian, Rev. E. B. Ernund, Beaver Dam; treasurer, Rev. C. C. Colby, Augusta; clerk, Rev. W. D. Wells, Omro.

TOBACCO GOES UP

PRICES ARE RAISED BY STATE GROWERS

Increase Amounts to About Twenty Per Cent.

MADISON, Wis., Oct. 10.—At a convention of the tobacco department of the American Society of Equity the leaf tobacco growers of Wisconsin fixed a schedule of minimum prices for this year's crop and decided that if the middle men decline to pay those prices they will pool their product and sell it directly to the manufacturers. The schedule of minimum prices is as follows:

"Best crop, 15 cents per pound; medium crop, 12 1/2 cents per pound; poor crop, not including trash, 10 cents per pound." This is said to be an increase of about 20 per cent over the minimum prices of last year.

The convention decided that if crops are not sold by Jan. 15 next, growers are to organize pools and handle and sell their tobacco themselves. Pooling warehouses will be opened at the different tobacco centers and committees of growers will take charge of the handling and selling of the product.

The tobacco department elected the following officers for the ensuing year: President, H. E. Holmes of Milton; vice president, James C. Hanson of Deerfield; secretary, S. D. Kump of Cambridge; treasurer, H. S. Pomeroy of Edgerton.

James C. Hanson of Cambridge, and H. S. Pomeroy of Edgerton were elected delegates to the national convention of the society to be held at Shelbyville, Ky., on Oct. 30.

H. J. SUTTLE WILL LEAD ODD FELLOWS

SPARTA, Wis., Oct. 10.—The grand encampment of Odd Fellows closed its annual session in this city yesterday. It was the largest and most harmonious held in years. The next session will be held at Antigo.

The following officers were elected: Grand chief patriarch, H. J. Suttle, Viroqua; grand high priest, W. H. Sherman, Beaver Dam; senior warden, J. W. Salter, Unity; junior warden, A. J. Caldwell, Oconto; grand representative, Charles Barker, Milwaukee.

A jewel and collar was presented by the encampment through Past Grand Patriarch Schroeder to Charles Barker of Milwaukee. The other grand officers were re-elected.

ASKS \$50,000 FOR SEVERE COLD

MARINETTE, Wis., Oct. 10.—(Special.)—A \$50,000 damage suit, one of the largest ever filed in this county, is scheduled for trial at the present term of the circuit court. Simon Marcotte, of Depere, Wis., asks this sum from the "Soo" railway, alleging that as the result of a wreck which occurred in Marinette county, he caught cold in the sleeper and that the effects were most serious. He was a passenger from Minneapolis to Escanaba at the time.

In 1900 the bicycle industry in the United States paid \$10,000,000 in wages and salaries, bought \$17,000,000 worth of materials and employed 20,000 Americans. Since then the business has slumped until about 250,000 machines a year are manufactured now as against 1,200,000 in 1900.

HOLDS TRAVELERS AT BAY

Declares Road Was Built Through Land Illegally and Fires on People Who Attempt to Use It

WASHBURN, Wis., Oct. 10.—Northern Wisconsin has during the past week developed a man who believes in the method adopted by John Dietz, the noted Cameron dam man, in the defense of his rights. This man is Arnt Hanson, a farmer living about seven miles from this city, who has taken the law in his own hands to right a supposed wrong done him. Hanson owns forty acres of land on the new road just completed by the county board between this city and the town of Cornucopia, and his claim is that the new road runs through his land beyond the two rod limit, and he does not intend to permit travelers between the two places to pass over it.

The road was just recently opened up, and the contractors who put the road through had more or less trouble with Hanson at the time of the building of that section, but when the road was finished no further trouble was anticipated. But it turned out altogether different, and a day or so ago, when a party of forty business men from this city attempted to go over the new road on their way to Cornucopia, they say that Hanson, together with his son and another man, refused to permit travel over what he claimed to be his land. He had constructed a gate over the road, and the three guarded it with guns.

When the first group conveying the party arrived at the gate they were informed that any attempt to open the gate would result in bloodshed. John Walsh and President F. J. Meahan of the Commercial club advanced to ascertain the reason for such threatening proceedings, whereupon Hanson fired. The men dodged behind stumps, and the shot scattered and fell among the people seated in their buggies, some of them striking the horses, while others entered the clothing of the men.

After shooting Hanson deliberately reloaded his gun and again threatened to shoot, and the son was also in the act of taking aim, when the party decided to retire to avoid further trouble.

MEN AND WOMEN OF 60 MADE TO FEEL LIKE 20

A Wonderful Cure for Constipation and Nerve Tissue Builder Found in Simple, Harmless Tropical Fruits.

There is hardly anything in this world which makes a man or woman so happy as to have the bowels move regularly and naturally every day, and be in the possession of full nerve vigor, and it will surprise some probably to know that, even with advancing old age, this youthful vigor and health can be preserved by the use of a new simple remedy which has been found to possess the remarkable power of curing chronic constipation, kidney disease and rheumatism, and building up worn-out nerve tissue.

When the nerve tissue becomes weak and worn out, disease, loss of ambition and unhappiness quickly ensue.

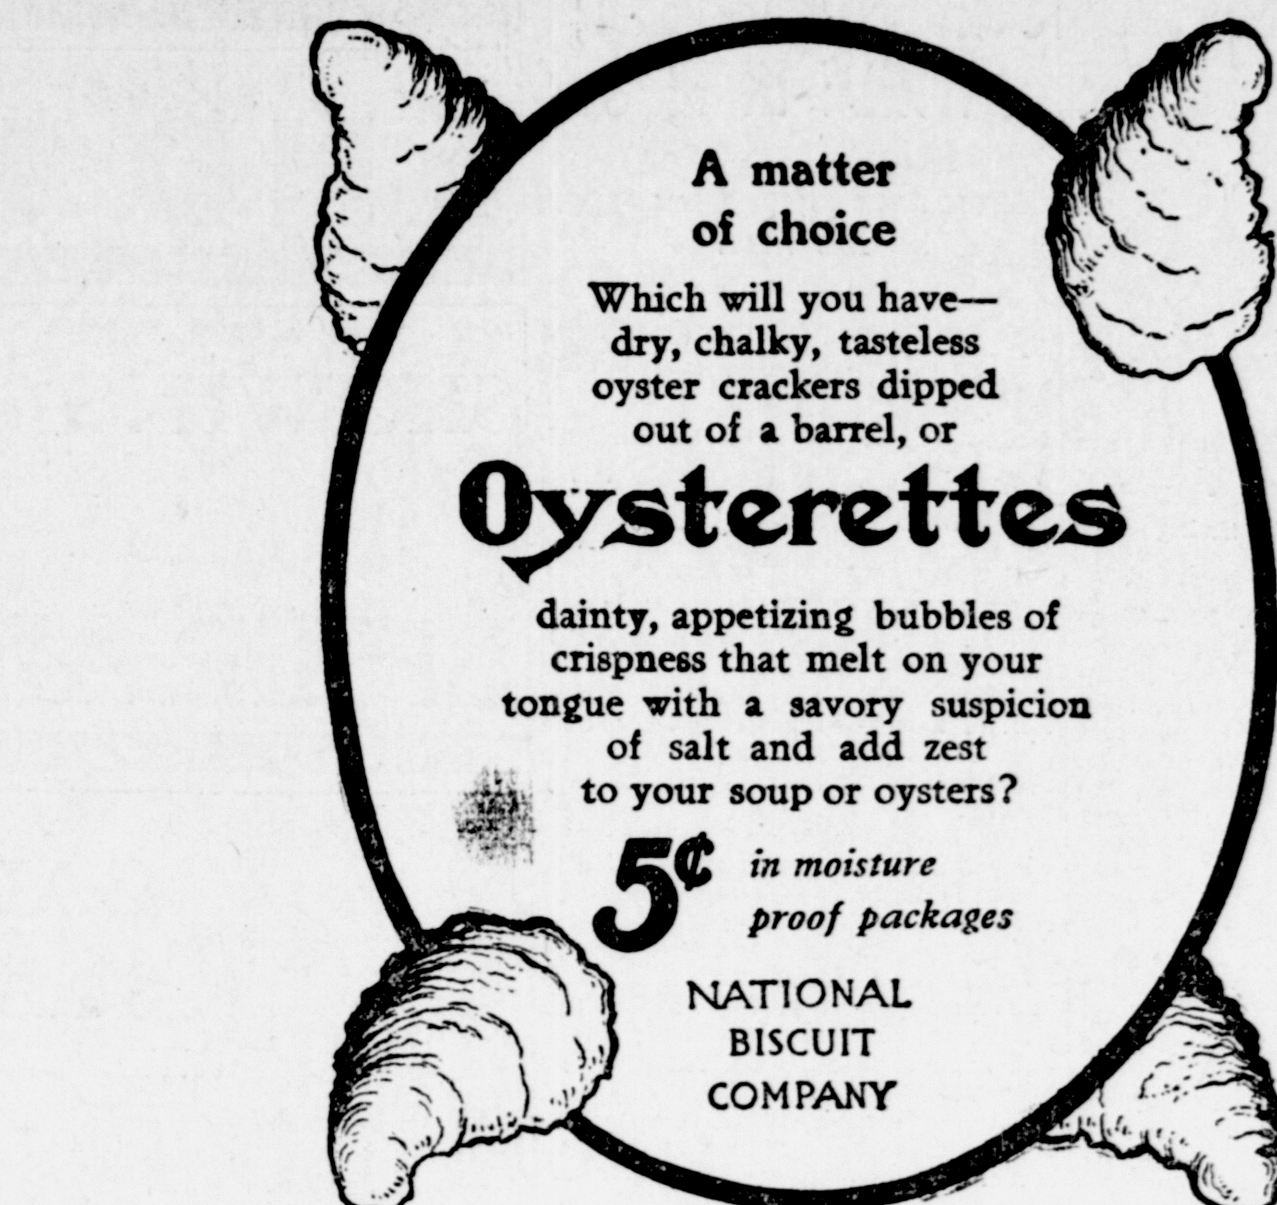

To our readers we give below, a remedy which, though remarkable for its simplicity, is equally remarkable in its results.

This remedy builds up nerve-tissues, gives strength and vigor to the nerves in all parts of the body, cures nervous debility in some of its worst forms, brain fog, insomnia, chronic constipation, weak back and kidney diseases, and when taken constantly and persistently is an almost sure preventive of disease and the weakness that comes from excess and old age.

The remedy is made up as follows: Mix one ounce of Obifrut Compound Extract with seven ounces of port wine or unfermented grape juice. Of this mixture, take one dessertspoonful three or four times a day before each meal and at bedtime.

This remedy is absolutely harmless, containing no narcotics, no alcohol, and no mineral or animal matter whatever.

The ingredients can be obtained at almost every drugstore and can be mixed at home in a very few minutes.

IDENTIFIES MAN; CROWD IS SULLEN

FOND DU LAC, Wis., Oct. 10.—W. B. Lappere, arrested for assaulting Bessie Richardson of North Fond Du Lac, was positively identified by the little girl yesterday afternoon.

There was considerable stir in the court room when the little miss, jumping from her mother's side when Lappere was brought in, and darting into the center of the room, pointed an accusing finger at him, screaming, "That is the man, mamma; that's the man."

Lappere will be given a hearing Oct. 18. He is held in bonds of \$1,000.

STUDENTS' CHAPEL AT UNIVERSITY

MILWAUKEE, Oct. 10.—(Special.)—Rev. G. E. Hunt reported on the state university religious prospects before the Wisconsin Presbyterian synod this morning. Mr. Hunt is chairman of the university committee and it is expected that soon provision will be made for a branch church in this city, like the Catholics and Episcopalians. This afternoon they synod took an excursion to Waukesha to look over Carroll college. Trustees will be elected. Rev. Dr. Landreth of Nashville, Tenn., will close the sessions tonight with an address.

COOPER CLAIMS WRESTLING TITLE

RACINE, Wis., Oct. 10.—Congressman H. A. Cooper claims the wrestling championship of congress, as a result of throwing John W. Gaines, of Mississippi. The bout took place on the trip down the Mississippi with President Roosevelt and party. Gaines formerly held the title.

ENGINEER IS EXONERATED

ELKHORN, Wis., Oct. 10.—Henry Roe of Milwaukee, an engineer on the Wisconsin Central railroad, held on the charge of manslaughter, was found not guilty. He was charged with being asleep on his engine, which, without a guiding hand, plunged into another train near Lake Benlah last March. David Jordan, Chicago, a brakeman, was killed.

KILLS MAN; FINED

GRAND RAPIDS, Wis., Oct. 10.—In the circuit court, in the murder case of Albert Neunfeldt, the charge was changed to manslaughter in the fourth degree, and the defendant pleaded guilty. The judge announced that he would make the sentence a nominal fine. Neunfeldt struck and killed his brother-in-law, Julius Marth, with an iron cuspidor last February.

Paul Douglas, who attempted to kill Chief of Police Garlhee with a razor early last month, pleaded guilty to the charge of assault to do great bodily harm. The judge reserved sentence until later in the week.

KILLED AT CROSSING

KENOSHA, Wis., Oct. 10.—Joseph A. Mayer, one of the wealthy farmers of the town of Pleasant

Prairie, was killed at the railway crossing of the Milwaukee road, a mile south of the Rainey station. Mayer, who was driving a team hitched to a light spring wagon, was struck by No. 3, a northbound passenger train, and his death must have been instantaneous. One of the horses was also killed in the smashup, but the other escaped uninjured.

SHE QUIT

But It Was a Hard Pull
It is hard to believe that coffee will put a person in such a condition as it did a woman of Apple Creek, O. She tells her own story.

"I did not believe coffee caused my trouble, and frequently said I liked it so well I would not, and could not quit drinking it, but I was a miserable sufferer from heart trouble and nervous prostration for four years. 'I was scarcely able to be around, had no energy and did not care for anything. Was emaciated and had a constant pain around my heart until I thought I could not endure it. For months I never went to bed expecting to get up in the morning. I felt as though I was liable to die any time.'

"Frequently I had nervous chills and the least excitement would drive sleep away, and any little noise would upset me terribly. I was gradually getting worse until finally one time it came over me and I asked myself what's the use of being sick all the time and buying medicine so that I could indulge myself in coffee?"

"So I thought I would see if I could quit drinking coffee and get some Postum to help me quit. I made it strictly according to directions and I want to tell you, that change was the greatest step in my life. It was easy to quit coffee because I had the Postum which I now like better than the old coffee. One by one the old troubles left, until now I am in splendid health, nerves steady, heart all right and the pain all gone. Never have any more nervous chills, don't take any medicine, can do all my housework and have done a great deal beside.

SILVER WEDDING AT WESTBY, WIS.

STATE TREASURER DAHLE AND WIFE CELEBRATE

500 INVITATIONS ARE ISSUED

Soon After Wedding Couple Lived in Vernon County Which Has Since Been Their Residence

MADISON, Wis., Oct. 10.—(Special.)—State Treasurer A. H. Dahl and wife will celebrate their silver wedding Thursday afternoon at their home in Westby, with their seven children and numerous friends. About 500 invitations have been issued and the state treasurer and his wife left here Wednesday for Westby to make plans for the reception. Mr. Dahl has lived near Westby nearly all of his life, and 29 years of his wedded life was spent there. He has a general merchandise business at Westby.

Mr. and Mrs. Dahl were married on Oct. 10, 1882. He was born at Lewistown, Columbia county, April 13, 1859. Mrs. Dahl, nee Julia Vinje, was born in Voss, Norway, Feb. 10, 1856. She has two brothers living, Judge A. J. Vinje of the circuit court, Superior, and David Vinje, a lawyer at Nevada, Iowa.

After marriage Mr. Dahl was a traveling salesman for two years living at Viroqua. He then formed a partnership under the name of Galstad & Dahl in the general store business at Westby. In 1896 he became sole owner and two years later built the first solid brick business block in Westby. His interests there are now merchandise and machinery and at the store he has a combined floor space of 22,820 square feet, including the basement. It is one of the model stores for a small country town of 700 inhabitants.

They have seven children. Harry J., the oldest, is a graduate of the university and is now managing his father's store; Elvora J., graduated from the university last spring and is now living in Madison; Chester F., is a senior in the university; Lulu E., is a sophomore in the university; Alice I., is a senior in the Wisconsin Academy, Madison; Victor V., is a pupil in the eighth grade ward school and Aad, J., is attending the fifth grade in the ward school here. Mr. Dahl is well known in the state politically, having served in the assembly three terms and was elected state treasurer last fall. In his own community he has held the highest positions in the gift of the people.

GUARD OFFICER HERE TUESDAY

C. R. Williams, assistant quartermaster of the Wisconsin National guard, spent Tuesday in the city conferring with Captain C. H. Rawlinson, of Company M, relative to the steps to be pursued by the company in securing a new home. The result of the conference was not given out. The equipment of the company will be stored, but no drills will be held, because of the lack of an armory.

REMAIN ANOTHER MONTH

Mr. and Mrs. Charles Hoeschler are still visiting in the east where they expect to remain for about a month. Mrs. Hoeschler was formerly Miss Jennie Conway and was recently wedded.

John Conway a brother of the bride, who attended the wedding, yesterday returned to his home at Pierre, Iowa.

AN ODD JOURNEY.

Moving a 250 Ton Lightship Across Hills and Woodland. What was probably the most remarkable journey ever undertaken by a ship in this country was that of a vessel overland, in which she went through extensive forests, climbed steep hills and moved along highways. The craft was one of the largest lightships in the government service and was stationed off one of the smaller harbors on the coast of Oregon. At this point a bay makes an indentation into the land so that a peninsula of considerable length is formed. In a gale the lightship dragged her anchors, finally broke from her moorings and was thrown up on the shore so far that it was found impossible to float her again at this point. The accident occurred on one side of the peninsula referred to, which is partly formed by the waters of Baker's bay. After planning how to save the vessel it was decided by the lightship crew that the only way to again place her in her native element was to haul the ship, if possible, along the peninsula to another beach where the water is so deep that it would float the craft within a few feet from shore. The route lay through a rough country, including several hills as well as woodland. The lightship weighed more than 250 tons and was more than 150 feet in length, so that apparatus of considerable power had to be utilized to lift her upon the rollers along which she was to be moved. The only power employed was that of men and horses. The horses were attached to a windlass and with its help managed to lift the vessel upon the big rollers which were placed under her keel. Then the journey over the peninsula began, the windlass being used to aid the animals in pulling. In advance went a squad of men who cut away the underbrush and small trees, filled up holes and thus formed a sort of roadway over which the lightship journeyed. Such was the difficulty of the task, however, that several weeks elapsed before the peninsula was crossed, in that time the vessel having traveled more than a mile. Reaching the end of the journey, the next question was how to launch her. This was finally accomplished by building ways of timber reaching from the shore into deep water. The craft was dragged upon the ways by means of the windlass, then cables were extended from her to a large tree on a point of land near the ways, and the ship was pulled into the water.—American Inventor.

THE SHIP'S RUDDER.

Difference in the strain that comes Upon Its Two Parts. The rudder of a wooden ship is composed of the stalk and the backing, which are so joined together as to form in effect a single piece. The complete rudder is copped to protect it from worms, and then, besides being practically all in one piece, it has that appearance also. The stalk is the part to which are attached the pintles, or pivots, by which the rudder is suspended and held in place, these going through eyes set in the ship's sternpost. The stalk runs up through the stern of the ship, and to its head is bolted a cap to which are attached the ropes by means of which the rudder is controlled. The backing is the blade part of the rudder. By far the greater strain comes on the stalk, and the greatest strain of all comes on the head of the stalk, the rudder head, where it is held. The stalk is made of the wood most likely to stand the strain, carefully selected, sound, well seasoned oak, while the backing is made of spruce or hard pine. The stalk is of a single, solid, massive piece, stout as an oak tree and indestructible of the dimensions of a small oak, something that a man can pin his faith to, if he can have faith in any wood, while the backing or blade is, like many modern wooden masts, built up. It would be difficult if not impossible to find trees that would yield planks big enough for the purpose in a single piece, and the built up backing, made of pieces of selected wood, can easily be made of ample strength to withstand any strain that will be brought upon it. As to the stalk, stout and solid as the oak may be, the head may be twisted by the force of a tremendous blow from a wave upon the rudder, or, under the repeated strains of long use, the head may split and so make the stalk useless. Then the rudder is taken out and fitted with a new stalk. A suitable stick is selected and worked down to the proper size and form, and very probably the old backing is attached to it. The life of a rudder stalk would probably be twelve to fourteen years. The backing might last as long as the ship.—New York Sun.

A HERO OF THE BUSH.

The Daring and Devotion of a Brave Maori Youth. Courage is not an attribute peculiar to the white man, nor is self sacrifice the prerogative of civilization. In Mr. J. C. Kirth's "Nation Making" is told a story as touching in its brave devotion as any tale of the Victoria cross. The incident occurred at Orakana, where the English soldiers had just defeated the Maoris. A little party of colonial troops, pursuing fugitives, came upon three natives, two old men and one young fellow. The youth, seeing the soldiers, dropped on one knee and aimed with his gun at the advancing party, which halted a moment, while the old men had thrown away their firearms in order to make escape easier. The soldiers fired at the youth, but missed. Without discharging his gun he sprang to his feet and ran on in advance until he caught up with the old men once more. Then, facing about, he presented his gun as before, but reserved his fire. The weary old men gradually drew near cover. Once more the soldiers fired and missed; once more the gallant fellow turned and bounded on. The old men were close to the forest when the youth, nearly fainting, again knelt and took aim, but still did not fire. The soldiers shot him as he knelt and rushed to the forest, but failed to capture the two fugitives, who, safe in the dense underbrush, made their escape. On their return the soldiers found the brave young fellow lying dead. His gun was empty; it had not been loaded at all. With it he had covered the retreat of the old men and secured their freedom by the loss of his own life. No more gallant deed of heroic devotion was ever accomplished in any land. Fifty Chicago schoolhouses have been declared unsanitary.

SUPERINTENDENT

(Continued from Page One.)

nightly on the streets and in the hall before a careless scoffing crowd of sinners and keep cool headed, sweet but earnest in declaring the Gospel messages.

In giving the report of the spiritual work done in the past nine months we have not been overly careful to count noses, or in other words we do not feel that this work can always be judged by numbers. When our Lord and Master sent out his disciples, the command was not to see how many could be reached, but to be faithful in delivering the message to all, the poor, the needy, the outcasts, and fallen ones. This we believe we have faithfully and earnestly tried to do. We can see wherein we have made many mistakes and blunders in the past year's work but these do not discourage us in the least. We feel like going forward with renewed vigor. The meetings have been well attended, considering the disadvantages of the up-stair location, and the few helpers we have had. The attendance is gradually increasing. We are pleased to note that more men are coming to the meeting now than at first. While our audience some nights has been composed largely of a class seldom seen in the churches, and many a man under the influence of liquor, the good behavior and attention given has been remarkable. Only once or twice have we had to reprove anyone for misconduct. It is for this class we labor and pray and while rapid progress is not looked for, yet the lives that are influenced for good, the discouraged ones cheered on the way, and the few brands plucked from the burning make sight over which angels would rejoice and the bells of heaven ring.

For if only one soul has been saved, one life transformed, one home made happy, should we not feel encouraged to press on to greater achievements. One hundred and six inside and sixty-one street meetings have been held since Jan. 1. Thirty have progressed conversion and many of these are standing true today. Besides this we know of many others who have been helped in the Christian experience and are developing into active workers. As for our personal testimony we can say that the past nine months' work has been a test to our faith for at times it has meant to simply stand still and wait. But we believe this training has been good for us and we are better servants of the Master than when we entered the work. The street meetings which have been in progress since April should not be overlooked in our consideration of this work. We firmly believe that this is one of the best means of carrying the gospel to the non-church going masses, and only Heaven will reveal the result of this summer's work on the street. Hundreds have heard this simple message of Christ and His love and power to save, that would otherwise never have heard it. How much more effectively this work could be done if we only had a gospel wagon, such as is being used in other cities.

The Temporal Work. While this branch of our work has been very much limited because of a lack of means, we are glad to be able to report something done. Probably the most important move was that of giving free hot lunches every Sunday morning last winter to the fellows who were down and out and also the newboys. Over three hundred of these lunches were given and many happy scenes still live in our memory. How the boys from the street, enjoyed the hot coffee and sandwiches and how often we were able to drop a kind word of encouragement and comfort to them. This work was made possible by the kindness of Mrs. Hon. J. J. Fruit, Mrs. E. E. Bentley, Mr. D. MacWillie and others.

We have been able to find employment for more than twenty that needed work. Two hundred articles of clothing have been distributed to needy people and we could have used more if such had been sent to us. The mission hall is open every day and evening and here men may come and spend a quiet hour. The daily papers, magazines and other good reading matter may always be found on hand. We would not forget or overlook the fact that some material help has been given to this branch of our work through the assistance of Drs. Rowles, Bradfield, Reed and Morikubo, caring for persons found needy, also in the superintendent's family.

Aside from the regular work the superintendent has made many calls upon the poor and needy ones in the city. This with the keeping up of the finances has made a busy nine months. Your superintendent has during this same period spoken at some of the local churches at least once a month. Young People's services, prayer meetings and the men's meetings at the Y. M. C. A. And now as we leave the past and look to the future what may we expect during the coming years? I am sure your superintendent sees great possibilities for this work, and if thus far, with limited means and little help some real definite good has been accomplished, what great things can be done with more united effort?

Our Greatest Need. We need a better location, a bright cheery room on the ground floor, where the passerby will be attracted by the singing and thus be induced to come into the service or reading room. We realize this will mean a higher rent, but if this work is ever to make itself felt in La Crosse we must get where the people are. Yes, and we must have a closer co-operation with the pastors and churches. We need men and women who will consecrate their time and talents and money to this movement. We all need a greater realization of the value of a human life, and the awful reality of a soul lost. If our Lord and Mas-

TONIGHT'S PLAY

One of the most noted dramatic successes of the season, "The Hypocrites," comes to the La Crosse theatre tonight. A good production can always be counted on when Charles Frohman is behind the company and no disappointment awaits those who go to hear first class performance tonight. It is an intensely interesting play, with a moral, one of the few plays on the road that really make for good. I was one of the huge successes of the past two seasons on both sides of the ocean and is presented here by a first class company. The story runs through four acts and unfolds a plot of great heart interest and successfully grapples with one of the great problems of the day summed up in "Expendency is man's wisdom; doing right is God's."

The Paper Told the Tale. A certain Greek adventurer some years ago undertook to palm off upon the public some false copies of the gospel manuscripts. Many learned men were deceived, but not Dr. Cox, librarian of the Bodleian library at Oxford. How he detected the fraud was related in his own words in the Spectator: "I never really opened the book, but I held it in my hand and took one page of it between my finger and thumb while I listened to the rascal's account of how he found this most interesting antiquity. At the end of three or four minutes I handed it back to him with the short comment, 'Nineteenth century paper, my dear sir,' and he took it away in a hurry and did not come again. Yes, I was pleased, but I have handled several ancient manuscripts in my time, and I know the feel of old paper."

If you use a substantial and stylish writing paper—one that is easy to write upon and always correct, you create a good impression and please your correspondent.

Letters written on bad paper are seldom saved—they convey none of your personality. A good up-to-date paper is just as essential as the composition of a letter.

GROWERS LAUGH AT SMOKE TRUST

FARMERS TO SNAP THEIR FINGERS AT OCTOPUS

TO BOX THEIR OWN TOBACCO

Under the Auspices of the American Society of Equity and Trust Must Come to Terms

MADISON, Wis., Oct. 10.—(Special.)—The tobacco growers of Wisconsin have discovered that they can snap their fingers at the tobacco trust.

After Jan. 15, 1908, all tobacco in this state remaining unsold will be shipped in convenient centers, under the control of the American Society of Equity. In these different centers the leaf will be assorted under the direction of competent foremen, graded and boxed. When this has been accomplished the various shedding and sorting centers will exchange samples, and the whole crop will be sold under the auspices of the American Society of Equity, at prices already agreed upon.

Arrangements With Banks. In case the trust still refuses to pay the fixed price for the graded leaf, arrangements have been made with local banks to loan to the growers all money they need and the crop will be held until the weed octopus chooses to come off its high horse. This idea was copied from Kentucky, where two years ago the society closed-up several recalcitrant local banks for refusal to loan money to the growers on their shedded crops, and ultimately forced the trust to come to their terms.

This is the significant result of the meeting of the tobacco department of the American Society of Equity, which closed a two-days' convention in this city yesterday. Over 150 delegates were in attendance, representing the richest tobacco growing section of its size in the country. In every section of this district there is a local union of the society and there are 223 of these local unions in the state.

Demand Ahead of Supply. By application to the United States department of agriculture, the society has discovered that the demand for leaf this winter will far exceed the supply and upon this estimate the prices to be demanded by the growers from this time on have been based. These prices are:

Ir bundles (as hauled from the field) best crop, 15 cents lb. Medium crop, 12 1/2 cents lb. Poor crop (not including trash), 10 cents lb.

An advance of two cents a pound is to be made upon assorted leaf.

These prices are the minimum, and many growers will demand and get more. They are a little higher than the trust has been offering this fall.

Average Yield Light.

"Next to the railroads, the farmers are the wealthiest 'corporation' in the state," said President H. E. Holmes, of the tobacco department of the A. S. of E. yesterday. "We would have been wealthier long ago had we applied the theory of organized interests. This year the average yield of tobacco in Wisconsin is light—probably 800 pounds to the acre. It costs more to produce this year's crop than any one in the past ten years. Any farmer of this state who has kept accurate figures knows that the actual cost of producing the crop has been a shilling a pound. The price of help has been high and fertilizers cost 25 per cent more than ever before. Still the tobacco trust is offering us the same old prices. We know that the demand this year far exceeds the supply, and while we do it 'in equity,' let us demand at least a fair profit per pound. The farmers of Wisconsin will be saved \$1,000,000 on this crop alone through what this society will have accomplished as a result of our meeting here."

Belief in the ultimate success of the method to be used in controlling tobacco prices has led the society to arrange for a big meeting in September, when an effort will be made to apply the method to all products of Wisconsin farms. Under the circumstances, the movement is fraught with great significance to farming throughout the northwest. If not throughout the nation and the world.

WILSON COLWELL SPECIAL MEETING

A special meeting will be held Saturday, October 12th by the Wilson Colwell post of the G. A. R. and the meeting will be addressed by the department inspector.

AN INEXPENSIVE HOME REMEDY

Recommended To Those Who Suffer from Stomach Troubles.

Here is a simple prescription that will tone your stomach and put it in condition to digest your food:

Compound Tincture of Cinchona, one ounce; Prose Compound, one ounce; and Sherry Wine, half a pint; mix together and take one teaspoonful before meals and at bed time in a wine glass full of water.

This prescription can be put up by any druggist.

The Prose Compound in this prescription is a compound of digestive ferments and the best vegetable tonics known to medical science; they increase the secretions of the gastric juices and increase their digestive power.

We advise that if you are troubled with your stomach you get this prescription filled at your drug store and give it a trial.

SPARTA WILL SEND A BIG DELEGATION

President J. P. Bird of the Western Wisconsin Teachers' association has been informed by Superintendent Sanford of Sparta that all of the Sparta teachers will attend the annual convention which opens here Friday morning of this week.

Other reports are encouraging and Mr. Bird believes the attendance here will greatly exceed the 500 at the last convention, including the citizens who pay entrance fees to hear the leading lecturers.

Some don't know the difference between heaping coals of fire on the head and throwing cinders in the eyes.

RAILROADS DO HEAVY BUSINESS

The railroads operating through La Crosse are getting a big buche of business at the present time and the prospects are for an increase in this business right along. All commodities shipped at this time of the year are now being offered rather freely for shipment and it is difficult for the roads to handle some of the business that is offered just at present.

One of the heavy freights of the western roads of late has been coal. The transcontinental lines will put into effect an advance of rates on Oct. 1, and it is for this reason that the lumbermen have been making the heavy shipments. They have been very desirous of getting the commodity east before the rates made it cost more money.

Coal has been moving freely of late when the railroad companies were able to furnish cars. This has been one of the things that has served as a bother to the railroad men. Some of the roads have been unable to anywhere near supply the demand for cars and the coal docks are plugged in a great many cases as a result.

While reports from the west are that there will be no famine the coal men are still not so sure about the situation. Being an excellent one as some others interested. The increased demand from the west is due to the increased business rather than to the fact that the western people are putting in great stocks of coal and while in some cases the stocks are larger than they were a year ago they are not as large as they should be.

The receipts of grain are some better than they were a few days ago. The weather is still bad, however, and they are not up to what they should be at this time of the fall. But with a little good weather the business will be so heavy that it will probably be something of another trouble-causer for the roads.

DEED TO THRESHER PLANT IS FILED

The deed transferring the La Crosse Threshing Machine Manufacturing company plant, 1800-1830 West avenue south, to the Vote-Berger company, as exclusively announced in the Tribune last night, was filed with Register of Deeds Frank Aiken this morning.

C. S. Van Auker, as trustee of the La Crosse Threshing Machine Manufacturing company, transfers the property to W. W. Cargill, president of the Vote-Berger company, and Henry Gund, vice president of the same company. The deed bears the date of Sept. 30.

The consideration named is \$100, but is only nominal. It is believed the price is in the neighborhood of \$35,000. This sum was asked for the property by the threshing machine company, but was refused by the purchasers. Later the negotiations were completed.

MILL EMPLOYEE HIT BY A BRICK

Alex Elner, an employee at the new Listman mill, met with a serious accident while descending a scaffold on the inside of a chimney which is being constructed. He was descending from the top of the chimney when a brick was dropped. One of the men on the top called "look out below," but Mr. Elner looked up and the brick struck him in the lip, cutting it in twain and loosening several teeth. He was removed to a doctor's office where his wounds were dressed but it is feared a scar will remain.

MOTHER OF C. S. VAN AUKEN DEAD

C. S. Van Auker received a telegram last evening announcing the death of his mother, at her home at Phelps, N. Y., after a lingering illness from heart trouble. He was 70 years old and leave besides her son in this city two daughters, both residing at home, to mourn her loss. Mr. Van Auker left for Phelps last evening.
